~~Drvenkar~~

Sorry is certainly a readable book, but it's really two stories - the story of the killer, which is quite intriguing if unpleasant, and the story of the four personality-free friends who run the agency which is much less involving - in fact

the whole plot about the agency seems almost irrelevant and under-developed.

Zoran Drvenkar's thriller novel Sorry is a nearly ideal illustration of this idea. It's a deceptively simple yet
