In this original and illuminating book, Denise A. Spellberg reveals a little-known but crucial dimension of the story of American religious freedom—a drama in which Islam played a surprising role. In 1765, eleven years before composing the Declaration of Independence, Thomas Jefferson bought a Qur'an. This marked only the beginning of his lifelong interest in Islam, and he would go on to acquire numerous books on Middle Eastern languages, history, and travel, taking extensive notes on Islam as it relates to English common law. Jefferson sought to understand Islam notwithstanding his personal disdain for the faith, a sentiment prevalent among his Protestant contemporaries in England and America. But unlike most of them, by 1776 Jefferson could imagine Muslims as future citizens of his new country. Based on

groundbreaking research, Spellberg compellingly recounts how a handful of the Founders, Jefferson foremost among them, drew upon Enlightenment ideas about the toleration of Muslims (then deemed the ultimate outsiders in Western society) to fashion out of what had been a purely speculative debate a practical foundation for governance in America. In this way, Muslims, who were not even known to exist in the colonies, became the imaginary outer limit for an unprecedented, uniquely American religious pluralism that would also encompass the actual despised minorities of Jews and Catholics. The rancorous public dispute concerning the inclusion of Muslims, for which principle Jefferson's political foes would vilify him to the end of his life, thus became decisive in the Founders' ultimate judgment not to establish a

Protestant nation, as they might well have done. As popular suspicions about Islam persist and the numbers of American Muslim citizenry grow into the millions, Spellberg's revelatory understanding of this radical notion of the Founders is more urgent than ever. Thomas Jefferson's Qur'an is a timely look at the ideals that existed at our country's creation, and their fundamental implications for our present and future.

Drawing on various perspectives and analysis, the Handbook problematizes Middle East politics through an interdisciplinary prism, seeking a melioristic account of the field. Thematically organized, the chapters address political, social, and historical questions by showcasing both theoretical and empirical insights, all of which are represented in a style that ease readers into sophisticated induction in the Middle East. It positions the didactic at the centre of inquiry. Contributions by forty-four scholars, both veterans and newcomers, rethink knowledge frames, conceptual categories, and fieldwork praxis. Substantive themes include secularity and religion,

gender, democracy, authoritarianism, and new "borderline" politics of the Middle East. Like any field of knowledge, the Middle East is constituted by texts, authors, and readers, but also by the cultural, spatial, and temporal contexts within which diverse intellectual inflections help construct (write–speak) academic meaning, knowing, and practice. By denaturalizing notions of singularity of authorship or scholarship, the Handbook plants a dialogic interplay animated by multi-vocality, multi-modality, and multi-disciplinarity. Targeting graduate students and young scholars of political and social sciences, the Handbook is significant for understanding how the Middle East is written and re-written, read and re-read (epistemology, methodology), and for how it comes to exist (ontology).
