Includes practices for cleansing the blood of toxins, relieving pain, using sexual energy for healing, and other tools for the treatment and prevention of disease Explains the unique healing potential of chi kung color therapy and how to harness universal and earthly elemental energies in healing By Mantak Chia, coauthor of The Multi-Orgasmic Man Taoists believe in an underlying unity that permeates the universe and intimately binds all things. Taoist Cosmic Healing presents chi kung techniques that develop and strengthen awareness of the forces and energetic principles of the universe and the earthly six directions, allowing the reader to draw upon these forces for healing themselves and others. Taoist Cosmic Healing teaches the reader how to use the major acupuncture points in the hands to activate, open, and balance the chi meridians throughout the body. This practice allows the student to detoxify and rejuvenate the major organ systems and, when combined with specific body positions and the chi kung stance, to heal others. Through Mantak Chia's profound understanding of the ancient esoteric science of guiding chi energy, students can learn how to harness the astral energies of specific stars. Master Chia also explains the important role that compassion and positive energy play in enhancing one's ability to heal. He presents for the first time in the West the details of chi kung color therapy and how it can activate and strengthen the immune system.

Strengthen the qualities in your Taoist astrological chart with Inner Alchemy techniques and Universal Healing Tao exercises Describes how to interpret your Taoist astrology birth chart and discover the unique combination of Five Elements underlying your personality, health, and destiny Reveals how to strengthen your birth chi with Inner Alchemy techniques and Universal Healing Tao exercises Explains how to calculate your wealth phase, organ health, and luck cycles Each of us is born with a unique combination of heavenly and earthly energies dictated by the stars overhead and the season on Earth at the moment you take your first breath. Known in Taoist astrology as the Four Pillars of Destiny, this "birth chi" can be calculated using the year, month, day, and time of your birth. Master Mantak Chia and astrologer Christine Harkness-Giles reveal how to interpret your birth chi and strengthen weaknesses within your astrological energies. They explain how each of us is ruled by one of the Five Elements--Wood, Fire, Earth, Metal, and Water--in a Yin or Yang state. For each Element and Yin or Yang combination, the authors describe personality traits, ideal career paths, and emotional and health issues. They reveal how to discover your levels of success, wealth, and power; how your astrological strengths will manifest; and how to understand your relationships with partners, friends, and family. They also explain how to use your chart to calculate your organ health and annual luck cycles. The authors show how to use Inner Alchemy techniques, such as color therapy and feng shui, and Universal Healing Tao exercises, such as the Healing Sounds and Chi Kung, to harmonize and strengthen the inborn imbalances and weaknesses in your chart. This hands-on method of astrology allows you to take control of your health and destiny by connecting your personal energy with the energies of the cosmos.

A fundamental Taoist practice for enhancing and utilizing chi Includes breathing and movement exercises to promote vitality and healing through the cultivation of chi in the tan tien and perineum areas Presents the foundational exercises that are essential for more advanced practices such as Iron Shirt Chi Kung and Cosmic Healing Tan Tien Chi Kung is the art of cultivating and condensing chi in the lower abdomen--the tan tien--the fundamental power storehouse of the body. Known as the Ocean of Chi to the ancient Taoists, this lower abdominal area holds the key to opening the body and the mind for the free and continuous movement of chi. Tan Tien Chi Kung contains specific breathing and movement exercises that develop the power of the chi stored in the body to increase vitality, strengthen organs, and promote self-healing. Mantak Chia explains how these exercises also provide a safe and effective method for receiving earth energy, which allows the practitioner to achieve balance physically, mentally, and spiritually--all of which are essential for the more advanced practices of Iron Shirt Chi Kung and Cosmic Healing. It is our mind that directs and guides our chi, but if the mind and body are out of balance or under stress, the mind cannot perform this function. The tan tien actually contains a large quantity of neurotransmitters, making it a key source of body intelligence. It is for this reason the Taoists also referred to Tan Tien Chi Kung as Second Brain Chi Kung and created exercises that would allow practitioners to gain awareness of the tan tien's function to restore the mind-body balance that is essential for spiritual growth and optimal well-being.

A guide to Taoist exercises to return to the Wu Wei state of mind and create the immortal spirit body Includes illustrated instructions to connect astral energy with the energies of animals, children, and plants to grow the immortal fetus, or spirit body Provides warm-up exercises and a complete daily Kan and Li routine Explores how these advanced formulas are used for astral flight and realization of the Wu Wei state Building on the Lesser Kan and Li formulas for the development of the soul body, this book provides illustrated descriptions of the Greater Kan and Li formulas to create the immortal spirit body. Used by Taoist masters for thousands of years, these exercises are for advanced students of Taoist Inner Alchemy and mark the beginning of the path to immortality. Master Mantak Chia and Andrew Jan reveal how to use Taoist inner alchemy to harness the energies of Sun, Moon, Earth, North Star, and Big Dipper and transform them to feed the soul body and begin development of the immortal spirit body. They explain how to reverse yin and yang power through energetic work at the solar plexus, thereby activating the liberation of transformed sexual energy. They explore how to open the heart center and how to connect astral energy with the energies of animals, children, and plants to grow the immortal fetus, or spirit body. The authors provide warm-up exercises, including the Inner Smile and Fusion practices, and outline a complete daily Kan and Li routine for mental and physical health, longevity, astral flight, and realization of the Wu Wei state.

The guide to engaging and directing the three primordial forces of Earth, Heaven, and Higher Self to achieve enlightenment and immortality Explains how to circulate the life force, or chi, by balancing yang (male) and yin (female) currents of bioenergy Includes an overview of the complete Taoist body/mind/spirit system along with newly refined methods of activating the life force The sequel to the classic Awaken Healing Energy Through the Tao In 1983, Mantak Chia introduced the "Microcosmic Orbit" to the West. Prior to that time, most of the Eastern energy practices transmitted to the West were incomplete, dealing only with the ascending yang/masculine channel, which shoots life-force energy up the spine. The Microcosmic Orbit showed practitioners how to establish the descending yin/feminine channel of the life-force energy loop. Within Taoist systems, cultivating feminine energy has always been seen as the key to gaining balance and wholeness. Healing Light of the Tao presents the more advanced methods of chi cultivation in the Microcosmic Orbit, offering a full understanding of Taoist spiritual theory through its comprehensive overview of the complete Taoist body/mind/spirit system. The book also includes more advanced meditation methods for absorbing the higher frequencies of Earth Force, Cosmic Force, and Universal Force (Heavenly chi) into the basic orbit. It establishes a spiritual science that not only emphasizes practical benefits to health, sexual vitality, and emotional balance, but also shows how changes made in the energy body can lead to physical rejuvenation that the Taoists called immortality.
