This clearly written, easy-to-use reference manual delivers the evidence-based information nursing students and practicing nurses need to make confident diagnoses and construct care plans that meet

patients' healthcare needs. The perfect reference for any clinical, classroom or simulation setting, this updated edition integrates the nursing process throughout and makes it easier than ever to access the latest NANDA-I nursing diagnoses. UPDATED! 2018-2020 NANDA-I diagnosis and standards, Nursing Interventions Classification (NIC) and Nursing Outcomes Classification (NOC) labels incorporated throughout reinforce clinical confidence and quality of care. NEW! 17 new diagnoses keep students on the cutting edge of nursing practice. UPDATED! QSEN competency icons throughout reinforce important considerations for safe care. UPDATED! Alphabetical organization helps students find diagnosis information quickly and easily. Selected Nursing Diagnoses by Medical Diagnosis (Appendix I) delivers clearly written, authoritative care plans for every stage in the life cycle. Related Factors sections strengthen students' diagnostic capabilities. Quick Reference tables list diagnoses by life stages for access at a glance.

Based on the 4th edition of the renowned textbook of the same name, this softcover manual focuses on the information necessary to make clinical decisions in the ICU. It begins with a crucial section on responding to emergency situations in the ICU. It proceeds to cover the most relevant clinical information in all areas of critical care including critical care monitoring, techniques and procedures, essential physiologic concerns, shock states, pharmacology, surgical critical care, and infectious diseases. The manual also contains thorough reviews of diseases by organ system: cardiovascular diseases, respiratory disorders, neurologic and gastrointestinal disorders, renal, endocrine, skin and muscle diseases, and hematologic/ oncologic diseases. This essential new resource is written in an easy-to-read style that makes heavy use of bulleted lists and tables and features an all-new full color format with a color art program. All critical care providers will find this a useful clinical resource.

Sparks and Taylor's Nursing Diagnosis Reference Manual 9th edition provides clearly written, authoritative care plan guidelines for all 2012-2014 NANDA International (NANDA-I) approved nursing diagnoses. The book is full of bright colors, and organized by life-stages and type of care. Each Part opens with a new feature, Applying Evidence-Based Practice, which responds directly to the content. Each NANDA diagnosis includes associated Nursing Interventions Classifications (NIC) and Nursing Outcomes Classifications (NOC), and the nursing process is integrated throughout. This book is the ideal resource for any clinical setting.
