Acquiring technical writing skills means the need to accurately communicate thoughts, ideas, information, and messages in writing; and create documents such as letters, directions, specifications, manuals, reports, presentations, graphs, flow charts, etc. •Challenges.

~~Technical Writing and Presentation—Engineering~~

OVERVIEW. The need for skilled report writing has increased in the last 20 years. Companies increasingly seek training for technical staff, however, technical writing skills are not only necessary for engineers and alike; these skills are critical in any technically-oriented professional job. Technical communications—or technical writing—is not writing about a specific technical topic such as computers, but about any technical topic.

~~Technical Writing Presentational Skills And Online ...~~

Technical writing is the presentation of information that helps the reader to solve a particular problem. Technical writing is used in proposals, manuals, web pages, lab reports, newsletters, and many other kinds of professional documents. Technical writing is used to communicate information to management, employees, and other businesses. Technical writing can be considered the conduit between people who know technology and those who use it.

These topics are woven throughout the book and some of them are the main subjects of one or more chapters.

~~Technical Writing, Presentational Skills, and Online ...~~

In "Technical Writing, Presentational Skills, and Online Communication," computer science professor Raymond Greenlaw notes that the "writing style in technical writing is more prescriptive than in creative writing. In technical writing, we are not so much concerned about entertaining the audience as we are about conveying specific information to our readers in a concise and precise manner."
