The Betrayal of Work - Poetry Paper Writing Service Betrayal is a play written by Harold Pinter in 1978. Critically regarded as one of the English playwright's major dramatic works, it features his characteristically economical dialogue, characters' hidden emotions and veiled motivations, and their self-absorbed competitive one-upmanship, face-saving, dishonesty, and (self-)deceptions.. Inspired by Pinter's clandestine extramarital affair with ...

Betrayal (play) - Wikipedia

Betrayal in marital relationships may come in the form of being talked into an unwise purchase or being lied to by a friend. The damage being described here is the kind that comes from something very severe like infidelity. The damage of deceit. I have seen the damage of deceit in many marriages. It turns relationships from caring and considerate into a struggle for power. If the foundation of ...

The *American Prospect*'s James K. Galbraith's praise was typical: "Shulman's slim and graceful book is a model combination of compelling portraiture, common sense, and understated conviction." Beth Shulman's powerfully argued book offers a full program to address the injustice faced by the 30 million Americans who work full time but do not make a living wage. As the influential Harvard Business School newsletter put it, Shulman "specifically outlines how structural changes in the economy may be achieved, thus expanding opportunities for all Americans." This edition includes a new afterword that intervenes in the post-election debate by arguing that low-wage work is an urgent moral issue of our time.

A wide-ranging look at the allure and changing significance of work. With seductions, misunderstandings, and misinformation everywhere, this immensely readable book calls for a new contract--with ourselves. Drawing from history, mythology, literature, pop culture, and practical experience, Ciulla probes the many meanings of work or its meaninglessness and asks: Why are so many of us letting work take over our lives and trying to live in what little time is left? What has happened to the old, unspoken contract between worker and employer? Why are young people not being disloyal when they regularly consider job-changing? Employers can't promise as much to workers as before. Is that because they promise so much to stockholders? Why are there mass layoffs and "downsizing" in a time of unequalled corporate prosperity? And why are the most common lies in business about satisfactory employee performance? The traditional contract between employers and employees is over. This thoughtful and provocative study shows how to replace it by the one we make with ourselves.

Drawing on a long history and an analysis of world economics, a thought-provoking study provides a compelling explanation of why today's white-collar workers are so insecure about their jobs, despite a growing economy, and what can be done about it. Tour.

International Paper, the richest paper company and largest landowner in the United States, enjoyed record profits and gave large bonuses to executives in 1987, that same year the company demanded that employees take a substantial paycut, sacrifice hundreds of jobs, and forego their Christmas holiday. At the Adroscoggin Mill in Jay, Maine,

twelve hundred workers responded by going on strike from June 1987 to October 1988. Local union members mobilized an army of volunteers but International Paper brought in permanent replacement workers and the strike was ultimately lost. Julius G. Getman tells the story of that strike and its implications—a story of a community changing under pressure; of surprising leaders, strategists, and orators emerging; of lifelong friendships destroyed and new bonds forged. At a time when the role of organized labor is in transition, Getman suggests, this strike has particular significance. He documents the early negotiations, the battle for public opinion, the heroic efforts to maintain solidarity, and the local union's sense of betrayal by its national leadership. With exceptional richness in perspective, Getman includes the memories and informed speculations of union stalwarts, managers, and workers, including those who crossed the picket line, and shows the damage years later to the individuals, the community, and the mill. He demonstrates the law's bias, the company's undervaluing of employees, and the international union's excessive concern with internal politics.

Examines the formidable challenges facing the middle class, calling for fundamental changes while surveying the extent of the problem and identifying the people and agencies most responsible.

Noble introduces readers to three unforgettable women married to the same man. Following her acclaimed novel, *The Sister Wife*, Noble's *The Betrayal* continues the magnificent story of honor, love, devotion, and the reality of polygamy. *The Betrayal* is seen through the eyes of Bronwyn, the second wife of Gabriel MacKay, as she struggles to come to terms with the dictates of her Mormon faith and its prophet, Joseph Smith, and the difficult promise she made to her dear friend and sister wife not to fall in love with the husband they share.

There's a pervasive sense of betrayal in areas scarred by mine, mill and factory closures. Steven High's *One Job Town* delves into the long history of deindustrialization in the paper-making town of Sturgeon Falls, Ontario, located on Canada's resource periphery. Much like hundreds of other towns and cities across North America and Europe, Sturgeon Falls has lost their primary source of industry, resulting in the displacement of workers and their families. *One Job Town* takes us into the making of a culture of industrialism and the significance of industrial work for mill-working families. *One Job Town* approaches deindustrialization as a long term, economic, political, and cultural process, which did not begin and simply end with the closure of the local mill in 2002. High examines the work-life histories of fifty paper mill workers and managers, as well as city officials, to gain an in-depth understanding of the impact of the formation and dissolution of a culture of industrialism. Oral history and memory are at the heart of *One Job Town*, challenging us to rethink the relationship between the past and the present in what was formerly known as the industrialized world.
