Describes the 1985 purchase of a bottle of 1787 Châteaueu Lafite Bordeaux for \$156,000, the mysterious background of the wine, and the enigmatic wine collector who discovered the bottle, once supposedly owned by Thomas Jefferson, in a bricked-up Paris cellar.

The remarkable untold story of France's courageous, clever vinters who protected and rescued the country's most treasured commodity from German plunder during World War II. "To be a Frenchman means to fight for your country and its wine." –Claude Terrail, owner, Restaurant La Tour d'Argent In 1940, France fell to the Nazis and almost immediately the German army began a campaign of pillaging one of the assets the French hold most dear: their wine. Like others in the French Resistance, winemakers mobilized to oppose their occupiers, but the tale of their extraordinary efforts has remained largely unknown–until now. This is the thrilling and harrowing story of the French wine producers who undertook ingenious, daring measures to save their cherished crops and bottles as the Germans closed in on them. Wine and War illuminates a compelling, little-known chapter of history, and stands as a tribute to extraordinary individuals who waged a battle that, in a very real way, saved the spirit of France.

Amazon Best Book of the Month, July 2014 Journalist Maximillian Potter uncovers a fascinating plot to destroy the vines of La Romanée-Conti, Burgundy's finest and most expensive wine. In January 2010, Aubert de Villaine, the famed proprietor of the Domaine de la Romanée-Conti, the tiny, storied vineyard that produces the most expensive, exquisite wines in the world, received an anonymous note threatening the destruction of his priceless vines by poison-a crime that in the world of high-end wine is akin to murder-unless he paid a one million euro ransom. Villaine believed it to be a sick joke, but that proved a fatal miscalculation and the crime shocked this fabled region of France. The sinister story that Vanity Fair journalist Maximillian Potter uncovered would lead to a sting operation by some of France's top detectives, the primary suspect's suicide, and a dramatic investigation. This botanical crime threatened to destroy the fiercely traditional culture surrounding the world's greatest wine. SHADOWS IN THE VINEYARD takes us deep into a captivating world full of fascinating characters, small-town French politics, an unforgettable narrative, and a local culture defined by the twinned veins of excess and vitality and the deep reverent attention to the land that runs through it.

Looks at an event held in 1976 in which French judges, during a blind taste-test, chose unknown California wines to be superior to France's best wines. Reprint. 50,000 first printing.

The “engrossing” (Wall Street Journal) story of the biggest con in wine history In 2002, Rudy Kurniawan, an unknown twentysomething, burst into the privileged world of ultrafine wines. Blessed with a virtuoso palate, and with a seemingly limitless supply of coveted bottles, Kurniawan quickly became the leading purveyor of rare wines to the American elite. But in April 2008, at a New York auction house, dozens of Kurniawan's trophy bottles were abruptly pulled from sale. Journalist Peter Hellman was there, and he began to investigate: Were the bottles fake? Were there others? And was Kurniawan himself a dupe . . . or had he ensnared the world's top winemakers, sellers, and drinks in a web of deceit?

On October 12, 2005, a massive fire broke out in the Wines Central wine warehouse in Vallejo, California. Within hours, the flames had destroyed 4.5 million bottles of California's finest wine worth more than \$250 million, making it the largest destruction of wine in history. The fire had been deliberately set by a passionate oenophile named Mark Anderson, a skilled con man and thief with storage space at the warehouse who needed to cover his tracks. With a propane torch and a bucket of gasoline-soaked rags, Anderson annihilated entire California vineyard libraries as well as bottles of some of the most sought-after wines in the world. Among the priceless bottles destroyed were 175 bottles of Port and Angelica from one of the oldest vineyards in California made by Frances Dinkelspiel's great-great grandfather, Isaias Hellman, in 1875. Sadly, Mark Anderson was not the first to harm the industry. The history of the California wine trade, dating back to the 19th Century, is a story of vineyards with dark and bloody pasts, tales of rich men, strangling monopolies, the brutal enslavement of vineyard workers and murder. Five of the wine trade murders were associated with Isaias Hellman's vineyard in Rancho Cucamonga beginning with the killing of John Rains who owned the land at the time. He was shot several times, dragged from a wagon and left off the main road for the coyotes to feed on. In her new book, Frances Dinkelspiel looks beneath the casually elegant veneer of California's wine regions to find the obsession, greed and violence lying in wait. Few people sipping a fine California Cabernet can even guess at the Tangled Vines where its life began.

The adventure of a lifetime to buy Stalin's secret multimillion dollar wine cellar located in Georgia; it is the Raiders of the Lost Ark of wine. In the late 1990s, John Baker was known as a purveyor of quality rare and old wines. He was the perfect person for an occasional business partner to approach with a mysterious wine list that was different to anything John, or his second-in-command, Kevin Hopko, had ever come across. The list was discovered to be a comprehensive catalogue of the wine collection of Nicholas II, the last Tsar of Russia. The wine had become the property of the state after the Russian Revolution of 1918, during which Nicholas and his entire family were executed. Now owned by Stalin, the wine was discreetly removed to a remote Georgian winery when Stalin was concerned the advancing Nazi army might overrun Russia. Half a century later, the wine was rumoured to be hidden underground and off any known map. John and Kevin embarked on an audacious, colourful and potentially dangerous journey to Georgia to discover if the wines actually existed; if the bottles were authentic and whether the entire collection could be bought and transported to a major London auction house for sale. Stalin's Wine Cellar is a wild, sometimes rough ride through the glamorous world of high-end wine.
