The Choice, revised edition, by Elyahu M. Goldratt and Efrat Goldratt-Ashlag Goldratt presents his thought provoking approach, this time through a conversation with his daughter Efrat, as he explains to her his fundamental system of beliefs. The revised edition includes Efrat's own notes and maps (charts) she made during her conversations with her father, helping the reader determine the true essence of the book. From the original publication: TOC has been successfully applied in almost every area of human endeavor, from industry to healthcare to education. And while Eli Goldratt is indeed a scientist, an educator and a business leader, he is first and foremost a philosopher; some say a genius. He is a thinker who provokes others to do the same. Often characterized as unconventional, and always stimulating a slayer of sacred cows Dr. Goldratt exhorts his readers to examine and reassess their lives and business practices by cultivating a different perspective and a clear new vision.

Whether we're buying a pair of jeans, ordering a cup of coffee, selecting a long-distance carrier, applying to college, choosing a doctor, or setting up a 401(k), everyday decisions—both big and small—have become increasingly complex due to the overwhelming abundance of choice with which we are presented. As Americans, we assume that more choice means better options and greater satisfaction. But beware of excessive choice: choice overload can make you question the decisions you make before you even make them, it can set you up for unrealistically high expectations, and it can make you blame yourself for any and all failures. In the long run, this can lead to decision-making paralysis, anxiety, and perpetual stress. And, in a culture that tells us that there is no excuse for falling short of perfection when your options are limitless, too much choice can lead to clinical depression. In The Paradox of Choice, Barry Schwartz explains at what point choice—the hallmark of individual freedom and self-determination that we so cherish—becomes detrimental to our psychological and emotional well-being. In accessible, engaging, and anecdotal prose, Schwartz shows how the dramatic explosion in choice—from the mundane to the profound challenges of balancing career, family, and individual needs—has paradoxically become a problem instead of a solution. Schwartz also shows how our obsession with choice encourages us to seek that which makes us feel worse. By synthesizing current research in the social sciences, Schwartz makes the counter intuitive case that eliminating choices can greatly reduce the stress, anxiety, and busyness of our lives. He offers eleven practical steps on how to limit choices to a manageable number, have the discipline to focus on those that are important and ignore the rest, and ultimately derive greater satisfaction from the choices you have to make.

background needed to make informed choices about nuclear technologies, introducing concepts that can be used for evaluating the claims of both proponents and opponents

A guide based on the Beatitudes of Jesus identifies eight choice-based strategies for healing and promoting personal happiness, in a resource that shares inspirational stories about people who have overcome the pain of past difficulties through their faith. 65,000 first printing.

Contending perspectives on the future of US grand strategy. More than a decade has passed since the end of the Cold War, but the United States has yet to reach a consensus on a coherent approach to the international use of American power. The essays in this volume present contending perspectives on the future of U.S. grand strategy. U.S. policy options include primacy, cooperative security, selective engagement, and retrenchment. This revised edition includes additional and more recent analysis and advocacy of these options. The volume includes the Clinton administration's National Security Strategy for a New Century, the most recent official statement of American grand strategy, so readers can compare proposed strategies with the official U.S. government position.

This book is written in the attempt to deal with two major questions: what are the thinking processes that enable people to invent simple solutions to seemingly complicated situations? and, the question of how to use the psychological aspects to assist rather impair, the implementation of those solutions in a mode of an ongoing process.

Whether depression is felt mildly or acutely, temporarily or persistently, it strikes just about everyone at some point. Drs. Minirth and Meier believe, however, that the emotional pain of depression can be overcome and avoided. Drawing from their professional training, counseling experience, and biblical knowledge, they explore the complex relationship between spiritual life and psychological health and then spell out basic steps for recovering from depression and maintaining a happy, fulfilling life.

DO YOU WANT TO GET WELL? The power to heal—physically, mentally, emotionally, spiritually—is in God’s hands. But the choice to be healed is yours. Everyone, at some level, needs healing. You may have prayed for healing many times, for many years. Perhaps you have lived with your brokenness so long that you have become accustomed to it. Maybe you wonder just when God is going to take all the hurt away. He can. But you also must choose to let the hurt go and let the healing begin. In this special edition of *Healing Is a Choice*, author Stephen Arterburn offers a unique combination of book and workbook, outlining ten choices crucial to receiving healing. Embracing these choices means rejecting the lies we often tell ourselves. These are not hoops God requires you to jump through to earn your miracle; they form, instead, the journey He desires for you. He can—and will—walk with you. But you must put one foot in front of the other and choose to let the hurt go and let the healing begin. “His Word affirms that God wants us to experience His healing, but many times we make choices that stand in the way. *Healing Is a Choice* is a helpful resource that lays out the path of healing God’s way.” — JACK HAYFORD Founding pastor, The Church on the Way, Van Nuys, CA “When we look back at the past turns and twists in the pathways of our lives, we can see significant choices we made, which helped create the lives we have now. Stephen Arterburn has provided us with a guide for making the right decisions today to provide a redemptive path for tomorrow.” —JOHN TOWNSEND Coauthor of the bestseller *Boundaries* “I am asking you to give up your life as you know it so that you can find the life God has for you. Take hold of your future today and make the choices that will lead to your healing.” —STEPHEN ARTERBURN “He heals the brokenhearted and binds up their wounds.” —Psalm 147:3
