beyond entry-level jobs into a profitable and satisfying professional career. Even if you don't have the interest or the means for pursuing a university education, you can be a success. Lorenzo Gomez did it. Now you can do it, too.

The great lie of our society is that mental health and mental illness are the same. Lorenzo Gomez wants to dispel that notion for good. In his new book, *Tafolla Toro*, he reaches back in time to share stories of his turbulent, traumatic, and often violent middle school years in one of San Antonio's most crime-riddled neighborhoods. He opens up to reveal the fear, anxiety, and hopelessness he felt as a teenager and how those forces shaped his life until he began taking steps as an adult to improve his mental health. Alternating between shocking stories from his youth and letters written to his 12-year-old self, Lorenzo shows young people how to retake the battle of their mind by dealing with what is true and dismantling the lies that lead to self-deception. In Lorenzo's journey, readers will see someone who understands what they feel, knows what they're going through, and is standing up to tell them: Decide today that you are worthy.

In 1998, the thought of launching a startup in San Antonio was ludicrous-but that didn't stop Rackspace's founders from planting their flag in the heart of Texas. Just over two decades later, the scrappy little underdog that no one believed in is a billion-dollar business with more than 6,000 employees worldwide. One of the first ten account managers hired at Rackspace was Lorenzo Gomez. He was there when the company became the host for YouTube and saw the decade-long stretch where each month brought one-hundred new hires. The rocket ship growth was exhilarating but exposed Rackspace's early flaws, including avoiding customers at all costs. When the mission shifted to becoming one of the world's greatest service companies, everything changed. Suddenly, Rackspace had a rallying cry-"fanatical support"-and a culture that few companies

could match. ? The Rack We Built is Lorenzo's recollections from those days, told only as he can tell it: through stories packed with style, heart, and humor. With the principles in the book, you can create the type of culture that makes people want to volunteer their best.

An entertaining and inspiring account of conquering the fear of rejection, offering a completely new perspective on how to turn a no into a yes. Jia Jiang came to the United States with the dream of being the next Bill Gates. But despite early success in the corporate world, his first attempt to pursue his entrepreneurial dream ended in rejection. Jia was crushed, and spiraled into a period of deep self doubt. But he realized that his fear of rejection was a bigger obstacle than any single rejection would ever be, and he needed to find a way to cope with being told no without letting it destroy him. Thus was born his "100 days of rejection" experiment, during which he willfully sought rejection on a daily basis--from requesting a lesson in sales from a car salesman (no) to asking a flight attendant if he could make an announcement on the loud speaker (yes) to his famous request to get Krispy Kreme doughnuts in the shape of Olympic rings (yes, with a viral video to prove it). Jia learned that even the most preposterous wish may be granted if you ask in the right way, and shares the secret of successful asking, how to pick targets, and how to tell when an initial no can be converted into something positive. But more important, he learned techniques for steeling himself against rejection and ways to develop his own confidence--a plan that can't be derailed by a single setback. Filled with great stories and valuable insight, Rejection Proof is a fun and thoughtful examination of how to overcome fear and dare to live more boldly.

Collects humorous, whimsical, and strange stories that combine unusual subject matter with emotional expression and exhibit a broad diversity of form.

This engaging and approachable (and humorous!) guide to taste and flavor will make you a more skilled and confident home cook. How to Taste outlines the underlying principles of taste, and then takes a deep dive into salt, acid, bitter, sweet, fat, umami, bite (heat), aromatics, and texture. You'll find out how temperature impacts your enjoyment of the dishes you make as does color, alcohol, and more. The handbook goes beyond telling home cooks what ingredients go well together or explaining cooking ratios. You'll learn how to adjust a dish that's too salty or too acidic and how to determine when something might be lacking. It also includes recipes and simple kitchen experiments that illustrate the importance of salt in a dish, or identifies whether you're a "supertaster" or not. Each recipe and experiment highlights the chapter's main lesson. How to Taste will ultimately help you feel confident about why and how various components of a dish are used to create balance, harmony, and deliciousness.

"Gently humorous black-and-white illustrations pair nicely with the text. With all the foodies out there, this delightful series deserves a long shelf life...and many more courses."--Kirkus Reviews "Fans of Junie B. Jones and Judy Moody . . . will enjoy this."--School Library Journal "Age-appropriate humor via an outspoken, lovable, take-charge narrator. Dreidemy's wiggly spot illustrations, meanwhile, supply plenty of nervous energy."--Booklist
Phoebe loves her pet fish, Betty #2 (named after Betty #1, may she rest in peace), making lists, and her best friend Sage. But when Camille, a tall French girl, arrives at school with unusual lunches, Phoebe's friendship with Sage doesn't seem so important anymore. Thanks to Camille, Phoebe discovers goat cheese, butter lettuce, and cilantro (although she's convinced that's not a real word). She's determined to get invited to her new friend's house for dinner to see what other mysterious food Camille eats. But what about Sage? Can Phoebe make a new friend and keep an old one?
