The Final Trade is book two in the highly acclaimed Dominion Trilogy, which once again showcases Hart's knack for creating breathtaking, futuristic thrillers. When not writing, he enjoys reading, exercising, exploring the great outdoors, and watching movies with his family.

The thrilling sequel to the runaway bestseller The Last Girl. Zoey is not the woman she once was. She's watched her friends die at the hands of their captors, been hunted, and returned from the brink of death. Now she must find the truth about who she is. In search of the family she never knew, Zoey learns of personal records stored in an Idaho missile silo that may contain the information she and the other women seek. With the help of her group of newfound friends, Zoey travels to the missile facility, but among the records, they uncover information that leads to an insidious and horrific new foe: the Fae Trade, a macabre carnival of slavery and pain. Zoey's journey into the darkest parts of the human psyche brings her perilously close to the ever-thinning line between good and evil, and the final cost in her quest for justice might be her own humanity.

"A mysterious worldwide epidemic reduces the birthrate of female infants from 50 percent to less than one percent. Medical science and governments around the world scramble in an effort to solve the problem, but twenty-five years later there is no cure, and an entire generation grows up with a population of fewer than a thousand women"--Page 4 of cover.

A "marvelous" (Economist) account of how the Christian Revolution forged the Western imagination. Crucifixion, the Romans believed, was the worst fate imaginable, a punishment reserved for slaves. How astonishing it was, then, that people should have come to believe that one particular victim of crucifixion-an obscure provincial by the name of Jesus-was to be worshipped as a god. Dominion explores the implications of this shocking conviction as they have reverberated throughout history. Today, the West remains utterly saturated by Christian assumptions. As Tom Holland demonstrates, our morals and ethics are not universal but are instead the fruits of a very distinctive civilization. Concepts such as secularism, liberalism, science, and homosexuality are deeply rooted in a Christian seedbed. From

Babylon to the Beatles, Saint Michael to #MeToo, Dominion tells the story of how Christianity transformed the modern world.

Between the mid-15th and mid-19th centuries every European state which possessed an Atlantic seaboard (and some did not) acquired territory overseas. Five countries stood out above all others in the race for colonies: Portugal, Spain, the Netherlands, France and England. But the world grew too small for these competing adventurers, which led in turn to conquest and international war. This, then, was a stage of expanded operations, of collisions, mutinies and alterations of course. As the centuries progressed, governments became more interested in efficient and rational administration and a more responsible attitude to subject races emerged.

Argues for responsible action in the treatment of animals, challenging popular conceptions about animal feeling and awareness and profiling a safari convention, factory farm, and the works of top writers.

Dixie & the Dominion is a compelling look at how the U.S. Civil War was a shared experience that shaped the futures of both Canada and the United States. The book focuses on the last year of the war, between April of 1864 and 1865. During that 12-month period, the Confederate States sent spies and saboteurs to Canada on a secret mission. These agents struck fear along the frontier and threatened to draw Canada and Great Britain into the war. During that same time, Canadians were making their own important decisions. Chief among them was the partnership between Liberal reformer George Brown and Conservative chieftain John A. Macdonald. Their unlikely coalition was the force that would create the Dominion of Canada in 1867, and it was the pressure of the war - with its threat to the colonies' security - that was a driving force behind this extraordinary pact.

Volume II of The Oxford History of the British Empire examines the history of British worldwide expansion from the Glorious Revolution of 1689 to the end of the Napoleonic Wars, a crucial phase in the creation of the modern British Empire. This is the age of General Wolfe, Clive of India, and Captain Cook. An international team of experts deploy the latest scholarly research to trace and analyze development and expansion over more than a century. They show how trade, warfare, and migration created an Empire, at first overwhelmingly in the Americas but later increasingly in Asia. Although the Empire was ruptured by the American Revolution, it survived and grew into the British Empire that was to dominate the world during the nineteenth and early twentieth centuries. Series Blurb The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study allows us to understand the end of Empire in relation to its beginnings, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British Empire as a theme in world history.

A groundbreaking book that puts early and medieval West Africa on the map of global history Pick up almost any book on early and medieval world history and empire, and where do you find West Africa? On the periphery. This pioneering book tells a different story. Interweaving political and social history and drawing on a rich array of sources, Michael Gomez unveils a new vision of how categories of ethnicity, race, gender, and caste emerged in Africa and in global history. Focusing on the Savannah and Sahel region, Gomez traces how Islam's growth in West Africa, along with intensifying commerce that included slaves, resulted in a series of political experiments unique to the region, culminating in the rise of empire. A radically new account of the importance of early Africa in global history, African Dominion will be the standard work on the subject for years to come.

Dominion is the first anthology of speculative fiction and poetry by Africans and the African Diaspora. An old god rises up each fall to test his subjects. Once an old woman's pet, a robot sent to mine an asteroid faces an existential crisis. A magician and his son time-travel to Ngoni country and try to change the course of history. A dead child returns to haunt his grieving mother with terrifying consequences. Candace, an ambitious middle manager, is handed a project that will force her to confront the ethical ramifications of her company's latest project—the monetization of human memory. Osupa, a newborn village in pre-colonial Yorubaland populated by refugees of war, is recovering after a great storm when a young man and woman are struck by lightning, causing three priests to divine the coming intrusion of a titanic object from beyond the sky. A magician teams up with a disgruntled civil servant to find his missing wand. A taboo error in a black market trade brings a man face-to-face with his deceased father—literally. The death of a King sets off a chain of events that ensnare a trickster, an insane killing machine, and a princess, threatening to upend their post-apocalyptic world. Africa is caught in the tug-of-war between two warring Chinas, and for Ibrahima torn between the lashings of his soul and the pain of the world around him, what will emerge? When the Goddess of Vengeance locates the souls of her stolen believers, she comes to a midwestern town with a terrible past, seeking the darkest reparations. In a post-apocalyptic world devastated by nuclear war, survivors gather in Ife-Iyoku, the spiritual capital of the ancient Oyo Empire, where they are altered in fantastic ways by its magic and power.
