The Future Of Management Gary

In *The Future of Management*, Gary Hamel argues that organizations need management innovation now more than ever. Why? The management paradigm of the last century—centered on control and efficiency—no longer suffices in a world where adaptability and creativity drive business success. To thrive in the future, companies must reinvent management.

The Future of Management by Gary Hamel -  
Goodreads

The future of management is here. Those who don't listen to employees' concerns would end up in courts or would go down because of low productivity and high absenteeism.

Information is empowering employees with knowledge about their rights, HR procedures and networked employee communities. Hamel warned them a decade ago, they had all this time to change.
