The House of Wisdom, also known as the Grand Library of Baghdad, refers to either a major Abbasid public academy and intellectual center in Baghdad or to a large private library belonging to the Abbasid Caliphs during the Islamic Golden Age. The House of Wisdom is the subject of an active dispute over its functions and existence as a formal academy, an issue complicated by a lack of physical evidence following the collapse of the Abbasid Caliphate and a reliance on corroboration of literary sources.

Having now read the whole book, I can confirm my initial impression that The House of Wisdom is a pro-Arab, pro-Islam, propaganda tract; it is a polemical-apologetic work, and not an impartial work of history. Its author, Jonathan Lyons, seems to be either a Muslim convert or someone financed by oil money. He definitely has an 'axe to grind'.

For centuries following the fall of Rome, western Europe was a benighted backwater, a world of subsistence farming, minimal literacy, and violent conflict. Meanwhile Arab culture was thriving, dazzling those Europeans fortunate enough to catch even a glimpse of the scientific advances coming from Baghdad, Antioch, or the cities of Persia, Central Asia, and Muslim Spain. There, philosophers, mathematicians, and astronomers were steadily advancing the frontiers of knowledge and revitalizing the works of Plato and Aristotle. In the royal library of Baghdad, known as the House of Wisdom, an army of scholars worked at the behest of the Abbasid caliphs. At a time when the best book

collections in Europe held several dozen volumes, the House of Wisdom boasted as many as four hundred thousand. Even while their countrymen waged bloody Crusades against Muslims, a handful of intrepid Christian scholars, thirsty for knowledge, traveled to Arab lands and returned with priceless jewels of science, medicine, and philosophy that laid the foundation for the Renaissance. In this brilliant, evocative book, Lyons shows just how much "Western" culture owes to the glories of medieval Arab civilization, and reveals the untold story of how Europe drank from the well of Muslim learning.

the European Renaissance. Many of the innovations that we think of as hallmarks of Western science had their roots in the Arab world of the middle ages, a period when much of Western Christendom lay in intellectual darkness. Jim al-Khalili, a leading British-Iraqi physicist, resurrects this lost chapter of history, and given current East-West tensions, his book could not be timelier. With transporting detail, al-Khalili places readers in the hothouses of the Arabic Enlightenment, shows how they led to Europe's cultural awakening, and poses the question: Why did the Islamic world enter its own dark age after such a dazzling flowering?

AN INSTANT NEW YORK TIMES BESTSELLER! In this "sage, valuable volume" (Publishers Weekly), First Lady Barbara Bush shares the best of her advice to family, staff, and close friends. First Lady Barbara Bush was famous for handing out advice. From friends and family to heads of state and Supreme Court justices, and certainly to her staff, her advice ranged from what to wear, what to say or not say, and how

to live your life. She especially loved visiting with students of all ages, from kindergartners to college graduates. When she turned 80, she owned up to all her advice-giving and explained it this way: After all, in 80 years of living, I have survived 6 children, 17 grandchildren, 6 wars, a book by Kitty Kelly, two presidents, two governors, big Election Day wins and big Election Day losses, and 61 years of marriage to a husband who keeps jumping out of perfectly good airplanes. So, it's just possible that along the way I've learned a thing or two. At the end of the day, she taught all of us some valuable lessons. As First Lady, she made a point of cuddling a baby with AIDS and hugging a young man who was HIV positive and whose family had rejected him, showing us by example the importance of compassion and

the myth of fear. As a mother, she made sure we all knew that your children must come first, and one of the most important things you can do is to read to them. As a friend and mentor, she showed that you had to be true to yourself, and even at the end of her life, she taught us how to die with grace. Full of Barbara Bush's trademark wit and thoughtfulness, Pearls of Wisdom is a poignant reflection on life, love, family, and the world by one of America's most iconic -- and beloved -- public figures.

Arab Winter, Noah Feldman argues that the Arab Spring was nevertheless not an unmitigated failure, much less an inevitable one. Rather, it was a noble, tragic series of events in which, for the first time in recent Middle Eastern history, Arabic-speaking peoples took free, collective political action as they sought to achieve self-determination. Focusing on the Egyptian revolution and counterrevolution, the Syrian civil war, the rise and fall of ISIS in Syria and Iraq, and the Tunisian struggle toward Islamic constitutionalism, Feldman provides an original account of the political consequences of the Arab Spring, including the reaffirmation of pan-Arab identity, the devastation of Arab nationalisms, and the death of political Islam with the collapse of ISIS. He also challenges commentators who say that the Arab Spring was never truly

transformative, that Arab popular self-determination was a mirage, and even that Arabs or Muslims are less capable of democracy than other peoples. Above all, The Arab Winter shows that we must not let the tragic outcome of the Arab Spring disguise its inherent human worth. People whose political lives had been determined from the outside tried, and for a time succeeded, in making politics for themselves. That this did not result in constitutional democracy or a better life for most of those affected doesn't mean the effort didn't matter. To the contrary, it matters for history—and it matters for the future.

Sommer was the world's oldest Holocaust survivor when she died on February 23, 2014. A Century of Wisdom is the true story of her life—an inspiring story of resilience and the power of optimism. Before her death at 110, the pianist Alice Herz-Sommer was an eyewitness to the entire last century and the first decade of this one. She had seen it all, surviving the Theresienstadt concentration camp, attending the trial of Adolf Eichmann in Jerusalem, and along the way coming into contact with some of the most fascinating historical figures of our time. As a child in Prague, she spent weekends and holidays in the company of Franz Kafka (whom she knew as “Uncle Franz”), and Gustav Mahler, Sigmund Freud, and Rainer Maria Rilke were friendly with her mother. house concerts, as did Arthur Rubinstein, Leonard Bernstein, and Isaac Stern. Until the end of her life Alice, who lived in London, practiced piano for hours every day. Despite her imprisonment in Theresienstadt and the murders of her mother, husband, and friends by the Nazis, and much later the premature death of her son, Alice was victorious in her ability to live a life without bitterness. She credited music as the key to her survival, as well as her ability to acknowledge the humanity in each person, even her enemies. A Century of Wisdom is the remarkable and inspiring story of one woman ' s lifelong determination—in the face of some of the worst evils known to man—to find goodness in life.
