Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you 'll understand—How to overcome negativity—Why comparison kills love—How to use your fear—Why you can 't find happiness by looking for it—How to learn from everyone you meet—Why you are not your thoughts—How to find your purpose—Why kindness is crucial to success—And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk 's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his resume—he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world 's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world 's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world 's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Famed for creating some of the most iconic images in European art—including Mona Lisa and The Last Supper—Leonardo da Vinci has influenced generations of artists and thinkers, and continues to do so after more than 500 years. While we cannot hope to emulate his achievements, da Vinci showed an attitude towards life from which we can all learn. A true polymath, he was also a sculptor, architect, musician, mathematician, engineer and an anatomist and, with an unquenchable thirst for knowledge, da Vinci was never satisfied with what he had learned, frequently turning his mind to new, unexplored subjects. He saw links between art and science, and constantly pursued perfection and accuracy in his work, so that he developed many techniques we continue to use to this day. Combining these strengths with a unique imagination, da Vinci came up with designs for inventions centuries ahead of their time. Read about this great man's life and achievements and develop your understanding of one of the world's most eclectic and extraordinary minds.

The resounding answer to all the questions above, according to DePandi, is: NO!
