"A communication to the public" must be communicated using new technical means or, failing that, to a "new public", that is, a public that was not already taken into account by the copyright holders when they authorised the initial communication of their work to the public. The profit-making nature of a communication was relevant.

However a cable retransmission is a different specific technical means, so the communication to the public cannot be ruled out on this point. C. Summary and Outlook. The CJEU has created a new definition for communication to the public, with a number of differences from earlier definitions under German law.

~~Communication to the public in copyright law - the German~~

The right of communication to the public under Article 3(1) of the InfoSoc Directive has been subject to several (nearly 20) references for a preliminary ruling to the Court of Justice of the European Union (CJEU). Over time, this exclusive right has become increasingly complex, and yet absolutely topical to online exploitation of works and enforcement of relevant copyrights.
