MORE THAN ONE MILLION COPIES IN PRINT • “One of the seminal management books of the past seventy-five years.”—Harvard Business Review This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge’s ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization’s ability to learn faster than the competition. The leadership stories demonstrate the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people’s ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations, in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will: • Reignite the spark of genuine

learning driven by people focused on what truly matters to them • Bridge teamwork into macrocreativity • Free you of confining assumptions and mindsets • Teach you to see the forest and the trees • End the struggle between work and personal time This updated edition contains more than one hundred pages of new material based on interviews with dozens of practitioners at companies such as BP, Unilever, Intel, Ford, HP, and Saudi Aramco and organizations such as Roca, Oxfam, and The World Bank.

It's up to a famous rapper, a biologist, and a rogue soldier to handle humanity's first contact with an alien ambassador—and prevent mass extinction—in this novel that blends magical realism with high-stakes action. After word gets out on the Internet that aliens have landed in the waters outside of the world's fifth most populous city, chaos ensues. Soon the military, religious leaders, thieves, and crackpots are trying to control the message on YouTube and on the streets. Meanwhile, the earth's political superpowers are considering a preemptive nuclear launch to eradicate the intruders. All that stands between seventeen million anarchic residents and death is an alien ambassador, a biologist, a rapper, a soldier, and a myth that may be the size of a giant spider, or a god revealed.
