The Movement Trilogy by Jason Gurley - Goodreads

Had the author approached Settlers as Bradbury and Asimov did, writing short stories that told the tale of a future historical movement, and steeping every scene with an urgent sense of foreboding from the failing Earth, I think the novel would have been a success. As it is, I don't think I'll be picking up the second book in this author's trilogy.

After reading The Settlers (book 1 of The Movement Trilogy), I knew something of what to expect with this sequel novel: lots of jumping around in the timeline (although never in a way that left me confused as to how the points in time related to one another), multiple viewpoints, and NO QUOTATION MARKS for the dialogue.

The areas now called Williamsburg, Greenpoint, and Bushwick (Community Boards 1 and 4) were originally one Dutch settlement, the Town of Bushwick. The land was purchased from the Canarsie Indians in 1638 and officially chartered by Governor Peter Stuyvesant in 1660. He also gave it the name of Boswyck (refuge or town in the woods).

"Jason Gurley will be a household name one day." – Hugh Howey Book 1 of The Movement Trilogy Earth is on the brink of ruin. Great storms destroy cities. Rising seas reshape the continents. Afraid for its survival, mankind constructs a fleet of space stations in orbit, and steps off-world. Among the humans fighting for their future are Micah Sparrow, a widower who uncovers a plot to return mankind to the dark ages; Tasneem Kyoh, who undergoes life-extension treatments and begins the search for humanity's next home; and David Dewbury, a prodigy who believes he knows where that home might be. But in space, the rules aren't the only things that have changed. Man himself has changed, and with the Earth in tatters behind him, man turns his attention to the one thing left to destroy: himself. The Settlers is the explosive first book in Jason Gurley's Movement Trilogy, the epic story of man's small step into space, and the great leaps humanity must make to save its own future.

"Jason Gurley will be a household name one day." – Hugh Howey Book 2 of The Movement Trilogy Earth has become an artifact of history. Children are no longer taught that it is the birthplace of mankind. For them, history begins with the Citadel, the enormous institution that governs the system with a heavy, vicious fist. Three hundred years have passed since the events of Book 1. The Machine class, oppressed and broken, has scattered throughout the system, building outposts and colonies on every surface they can find. They rely upon the Onyx class, the privileged ones, for sustenance. But the most brutal attack in human history relights the fuse of war between the two classes, and rebellions break out on every moon, planet and rock between Earth and the stars. And somewhere in the chaos, Tasneem Kyoh and David Dewbury still

fight for mankind's future... a new Earth, and a new beginning. The Colonists, the second title in Jason Gurley's Movement Trilogy, continues the epic story of humanity's greatest struggle, and its desperate battle with its most powerful enemy: itself.

This edition covers the history of the suffragist movement from its beginnings to 1885. It was written and edited by Elizabeth Cady Stanton, Susan B. Anthony and Matilda Joslyn Gage. Anthony had for years saved letters, newspapers clippings, and similar materials of historical value to the women's suffrage movement. Therefore, in addition to chronicling the movement's activities, this 3 volumes include reminiscences of movement leaders and analyses of the historical causes of the condition of women. They also contain a variety of primary materials, including letters, newspaper clippings, speeches, court transcripts and decisions, and conference reports. Daughter of the Forest is a testimony to an incredible author's talent, a first novel and the beginning of a trilogy like no other: a mixture of history and fantasy, myth and magic, legend and love. Lord Colum of Sevenwaters is blessed with six sons: Liam, a natural leader; Diarmid, with his passion for adventure; twins Cormack and Conor, each with a different calling; rebellious Finbar, grown old before his time by his gift of the Sight; and the young, compassionate Padriac. But it is Sorcha, the seventh child and only daughter, who alone is destined to defend her family and protect her land from the Britons and the clan known as Northwoods. For her father has been bewitched, and her brothers bound by a spell that only Sorcha can lift. To reclaim the lives of her brothers, Sorcha leaves the only safe place she has ever known, and embarks on a journey filled with pain, loss, and terror. When she is kidnapped by enemy forces and taken to a foreign land, it seems that there will be no way for her to break the spell that condemns all that she loves. But magic knows no boundaries, and Sorcha will have to choose between the life she has always known and a love that comes only once. Juliet Marillier is a rare talent, a writer who can imbue her characters and her story with such warmth, such heart, that no reader can come away from her work untouched. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

“Plagues and politics and romance, oh my! Dystopia meets science fiction in Emerge, the first book in a new series from popular YA author Heather Sunseri. ...Truly, a well-crafted dystopian romance! Don't miss this one!” ~Serena Chase, USA Today's Happy Ever After blog, author of The Ryn Six years ago, a highly contagious virus wiped out more than ninety-nine percent of the country's population. The only person to contract the virus and survive, Cricket fled her identity and the safety of New Caelum, an airtight city. Now eighteen, she watches the city where the wealthy cocooned from the devastating outbreak. When the city's rumbling incinerator wakes her one night while she and her friends are camping just beyond the city walls, she alone knows what the fiery machine means: the lethal virus is back. Only eighteen, Westlin Layne is already being groomed to succeed his mother as New Caelum's next president. Suddenly West's sister develops symptoms of the deadly virus thought to be eradicated years ago. Placed under quarantine, the president confesses to West a long-held secret: Christina Black, West's childhood friend and first love, survived the virus, and her body alone holds the precious antibodies to save his sister. Now West must leave the city to find Christina. But Cricket has no intention of being found.

Ken Follett's magnificent historical epic begins as five interrelated families move through the momentous dramas of the First World War, the Russian Revolution, and the struggle for women's suffrage. A thirteen-year-old Welsh boy enters a man's world in the mining pits. . . . An American law student rejected in love finds a surprising new career in Woodrow Wilson's White House. . . . A housekeeper for the aristocratic Fitzherberts takes a fateful step above her station, while Lady Maud Fitzherbert herself crosses deep into forbidden territory when she falls in love with a German spy. . . . And two orphaned Russian brothers embark on radically different paths when their plan to emigrate to America falls afoul of war, conscription, and revolution. From the dirt and danger of a coal mine to the glittering chandeliers of a palace, from the corridors of power to the bedrooms of the mighty, Fall of Giants takes us into the inextricably entangled fates of five families—and into a century that we thought we knew, but that now will never seem the same again. . . .

In *Awake in the World*, Jason Gurley delivers a gorgeous debut YA novel about dreams and finding the courage to reach them. When all was lost, they found each other. As the sun sets off the coast of the small California town of Orilla del Cielo, the silhouettes of oil rigs loom. Their shadows mar the serene backdrop, their sharpness a reminder of unfulfilled promises. To Zach, they are also a reminder of loss—his father, an oil worker, drowned years earlier. With his family struggling to make ends meet, Zach feels he's destined for a bleak future. Until he meets Vanessa. She's an optimistic girl from a wealthy family whose sights are literally set on the stars. Inspired by her idol, Carl Sagan, she plans on studying astronomy at Cornell. But as oil prospectors in search of black gold know, the future is uncertain . . . and fortunes can always be flipped.
