From Holbein to Hockney, from Norman Rockwell to Pablo Picasso, from sixteenth-century Rome to 1980s SoHo, Robert Hughes looks with love, loathing, warmth, wit and authority at a wide range of art and artists, good, bad, past and present. As art critic for Time magazine, internationally acclaimed for his study of

modern art, *The Shock of the New*, he is perhaps America's most widely read and admired writer on art. In this book: nearly a hundred of his finest essays on the subject. For the realism of Thomas Eakins to the Soviet satirists Komar and Melamid, from Watteau to Willem de Kooning to Susan Rothenberg, here is Hughes—astute,

He observes that Caravaggio was “one of the hinges of art history; there was art before him and art after him, and they were not the same”; he remarks that Julian Schnabel’s “work is to painting what Stallone’s is to acting”; he calls John

French writer Jean Baudrillard are matched in brilliance by his pungent discussions of the art market—its inflated prices and reputations, its damage to the public domain of culture. about the value of literature and the arts. One of the most public controversies of early modern Europe, the Quarrel has most often been depicted as pitting antiquarian conservatives against the insurgent critics of established authority. The Shock of the Ancient turns the canonical vision of those events on its

At a time when the constraints of decorum and the politics of French absolutism quashed the expression of cultural differences, the ancient world

to undermine the rigid codes of neoclassicism and paved the way for the innovative philosophies of the Enlightenment. Broadly appealing to students of European literature, art history, and philosophy, this book is an important contribution to early modern literary and cultural debates.
