This first critical book of essays on the poetry of Peter Gizzi shows how his work extends the traditions of nineteenth- and twentieth-century modernism while also reclaiming the living presence of the " lyric " in its capacity to sing of the human predicament. Gizzi is author of seven critically acclaimed books of poetry, including most recently Threshold Songs and Archeophonics, a finalist for the National Book Award in 2016. Lauded contributors, including Ben Lerner, Michael Snediker, Marjorie Perloff, and Charles Altieri, explore Gizzi ' s poetry for its embodiment of an American tradition—extending the poetics of Whitman, Dickinson, and Stevens, amongst others—while also exhibiting a twenty-first-century sensibility, perpetuating a new grammar and syntax to capture our place in the world today. Each essayist, in turn, works through close-readings of some of the most important poems of our times, enriching our understanding of a poetry of the mind which never loses track of what it means to feel.

A distinguished poet and scholar upends the notion that poetry can save the world.

The Encyclopedia of American Poetry: The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems, along with many articles devoted to topics, schools, or periods of American verse in the century. Entries fall into three main categories: poet entries, which provide biographical and cultural contexts for the author's career; entries on individual works, which offer closer explication of the most resonant poems in the 20th-century canon; and topical entries, which offer analyses of a given period of literary production, school, thematically constructed category, or other verse tradition that historically has been in dialogue with the poetry of the United States.

Wallace Stevens' "dark rabbi," from his poem "Le Monocle de Mon Oncle," provides a title for this collection of essays on the "lordly study" of modern Jewish poetry in English. Including chapters on such poets as Charles Reznikoff, Allen Grossman, Chana Bloch, and Michael Heller, this volume explores the tensions between religious and secular worldviews in recent Jewish poetry, the often conflicted linguistic and cultural matrix from which this poetry arises, and the complicated ways in which Jewish tradition shapes the sensibilities of not only Jewish, but also non-Jewish, poets. Finkelstein, described as "one of American poetry's indispensable makers" (Lawrence Joseph), whose previous critical work has been called "the exemplary study of the religious aspect of the works of contemporary American poets" (Peter O'Leary), considers large literary and cultural trends while never losing sight of the particular formal powers of individual poems. In Like a Dark Rabbi he offers a passionate argument for the importance of Jewish-American poetry to modern Jewish culture-and to American poetry-as it engages with the contradictions of contemporary life.

Gillian White argues that the poetry wars among critics and practitioners are shaped by " lyric shame " —an unspoken but pervasive embarrassment over what poetry is, should be, and fails to be. " Lyric " is less a specific genre than a way to project subjectivity onto poems—an idealized poem that is nowhere and yet everywhere.

By looking at the later Wordsworth's ekphrastic writings about visual art and his increased awareness of the printed dimension of his work, Simonsen calls attention to what is uniquely exciting about this neglected body of work, and argues that it complicates traditional understandings of Wordsworth based on his so-called Great Decade.

Feminist issues in avant garde poetry. In her now-classic The Pink Guitar, Rachel Blau DuPlessis examined a number of modern and contemporary poets and artists to explore the possibility of finding a language that would question deeply held assumptions about gender. In the 12 essays and introduction that constitute Blue Studios, DuPlessis continues that task, examining the work of experimental poets and the innovative forms they have fashioned to challenge commonplace assumptions about gender and cultural authority. The essays in " Attitudes and Practices " deal with two questions: what a feminist reading of cultural texts involves, and the nature of the essay itself as a mode of knowing: how poetry can be discursive and how the essay can be poetic. The goal of " Marble Paper, " with its studies of William Wordsworth, Ezra Pound, and Charles Olson is to suggest terms for a " feminist history of poetry. " " Perspectives must be fashioned that displace and estrange the world, " Theodore Adorno wrote, and in the section "Urrealism" DuPlessis examines the work of poets from several schools (the Objectivists, the New York School, the surrealists) whose work embodies that displacement, among them George Oppen, Lorine Niedecker, H.D., and Barbara Guest. These writers' radical deployment of line, sound, and structure, DuPlessis argues, demonstrate poetry ' s power not as a purely literary, artistic, or aesthetic force but as a rhetorical form intricately tied to issues of power and ethics. And in "Migrated Into, " the author probes the ways these issues have informed her, as a poet and a critic; how the political has " migrated into " and suffused her own work; and how the practice of poetry can be an arousal to a deeper understanding of what we stand for.
