MICCAI has built up a track record of attracting leading scientists, engineers and clinicians from a wide range of technical and biomedical disciplines. This year, we received 786 submissions, well in line

Access Free
The Structure
with the
previous two
conferences in
New York and
London. Three
program chairs
and a program
committee of 31
scientists, all
with a
recognized
standing in the
?eld of the
conference, were

Access Free
The Structure
Of Linear
Diffeomorphism
Groups
responsible for
the selection of
the papers. The
review process
was set up such
that each paper
was considered
by the three
program chairs,
two program
committee
members, and a
minimum of three
external

Access Free The Structure

Of Clinical
Differential Morphism
Groups

reviewers. The review process was double-blind, so the reviewers did not know the identity of the authors of the submission.

After a careful evaluation procedure, in which all controversial and

Access Free The Structure

gray area papers were discussed individually, we arrived at a total of 251 accepted papers for MICCAI 2010, of which 45 were selected for podium presentation and 206 for poster presentation. The acceptance

Access Free
The Structure
Of Clinical
Diffeomorphism
Groups

percentage (32%)
was in keeping
with that of
previous MICCAI
conferences. All
251 papers are
included in the
three MICCAI
2010 LNCS
volumes.

This book
