My story, The Sun Will Rise Again, begins when Gloria is about 15 and spans over the course of a few years as things start to go to shit and the angelic-demonic war starts up again in SunGate. Note: this is based off of Christian lore however it is not meant to be religious in anyway.

This is the stage that someone needs to speak up and say 'it's okay, the sun is going to rise in the morning.' Something that is not really talked about is how to deal with grief and sadness. God has got you though, take everything to Him.

After the storm the sun will shine again. In a brief respite from the rain, I noticed blue skies and a shining sun. I was reminded that behind every storm is at least a little sunshine. The rains will clear, the sun will shine again, and God's promises are always true.

World War II was without question the deadliest war in history. Of the estimated 70 million people killed, 50 to 55 million were civilians. The United States managed to stay out of the war that was ravaging the rest of the world until the day when the Empire of Japan bombed Pearl Harbor, "a date which will live in infamy." What prompted the Japanese to wage war with the United States? Was the attack really a surprise or was it a carefully orchestrated event by Washington to anger the American public enough to want to go to war? Did the Japanese government truly believe that they would prevail against the military might of the United States? The losses the Japanese military experienced during the Pacific War were unforeseeable. The suffering endured by the Japanese people was unimaginable. By the end of World War II, Japan had persevered through eight years of war, taking into account the Second Sino-Japanese War which began in 1937. The country lay in ruins and the morale of its people was at an all-time low, but in the land of the rising sun, THE SUN WILL RISE AGAIN! Follow Japan's journey from a nation vanquished to a nation victorious in this book that details the grim realities of war, politics, racism, and blind devotion.

This book titled 'THE SUN WILL RISE AGAIN' is aimed at inspiring millions of those little buds who are forced to terminate their journey half way, being unable to bear with a few failures. All their inherent skill, talent and aspiration for a better tomorrow, get buried in course of time. Accepting this to be the destiny's cruel decision, they are made to move from door to door with a begging bowl, desperately in search of a faint ray of HOPE—'will the fortune ever smile on us?' The high sounding speeches of some of the selfclaimed Servants of the people on different occasions like Independence Day, Children Day, Army Day and Teachers' Day. . . , end up with some promises and assurances—far from reality. Dadaji's dream to change their life, his dedicated & determined efforts to transform his vision to a reality, could instil self confidence among many children, To add to this, Ranimaa's untiring people—friendly activities, handling critical issues fearlessly, changed the lives of Chumki, Jaggu, Lala, Kanha Chahawalla, Sheela, Lakshmi, Chitrasen. . . and many others, as written in this book. This book containing twenty essays in brief and lucid form, touches various issues we come across, like—protecting the environment, care of children and elderly persons at home, stress management in work place, exploitation of the innocents in the name of religion and faith, providing the basic needs to all—like clean water, shelter, health care, education, safety, and. . . I shall be very happy if the readers take a little trouble to send their valuable suggestions for upgrading the book in the next edition.

This book seeks to offer an interpretation of how terrorism has become a tool of Muslim radicals and why it is completely at odds with the teaching of Islam. It claims that terrorism has nothing to do with Islam as a religion but the evolution of Muslims, especially in the past one thousand years, has created an environment in which fanaticism, radicalism and violence can flourish. Supported by double standards by Western powers and active backing for corrupt governments and groups, Islamic terrorism came into being. It presents an overview of how Islamic thought in many parts of the Muslim world has become rigid and frozen and grounds for hoping that change in that thought may come, from a perhaps surprising place. It suggests the role that both Muslim and Western societies have played and will continue to play in contributing to reforming Islam. Our purpose is not to provide a thorough proof of our ideas, but to spark discussion and dialogue, both in Muslim and non-Muslim communities (and, ideally, between the two) as to how Islam can regain in world thought and civilization the honored place it had during the Golden Age of Islam.

Sandra was just ten years old when she found herself with a gun pointed at her head. She had watched as rebels gunned down her mother and six-year-old sister in a refugee camp. Remarkably, the rebel didn't pull the trigger, and Sandra escaped. Thus began a new life for her and her surviving family members. With no home and no money, they struggled to stay alive. Eventually, through a United Nations refugee program, they moved to America, only to face yet another ethnic disconnect. Sandra may have crossed an ocean, but there was now a much wider divide she had to overcome. And it started with middle school in New York. In this memoir, Sandra tells the story of her survival, of finding her place in a new country, of her hope for the future, and how she found a way to give voice to her people.
