Firstly you want to make sure you have secondaries or a terrain advantage over the team. From there try and isolate one of the teammates with fnsing (That will be a word for this guide) the other teammate, making him back off from too many hits or using terrain (terrain is very difficult to separate teammates by possible). Make sure before you fight the isolated player that you are on high enough health to take out the player and have enough time to deal with him before his friend tries and ...
