The Wilding Benjamin Percy
"Here are a hundred ways to feel frightened and lost in a forest, and the excellent, savvy Benjamin Percy can evoke them all. The Wilding, a brilliant literary novel that feels at times almost like Geoffrey Household's classic Rogue Male, seems to have been written on his vibrating nerve endings. This book is filled with dread, sadness, tension, and a tireless vision of mankind's thoughtless devastation of an ancient and more authentic way of life.

| <p>The war in Iraq empties the small town of Tumalo, Oregon, of men—of fathers—leaving their sons to fight among themselves. But the boys' bravado fades at home when, alone, they check e-mail again and again for word from their fathers at the front. Often from fractured homes and communities, the young men in these breathless stories do the unthinkable to prove to themselves—to everyone—that they are strong enough to face the heartbreak in this world. Set in rural Oregon with the shadow of the Cascade Mountains hanging over them, these stories bring you face-to-face with a mad bear, a house with a basement that opens up into a cave, a nuclear meltdown that renders the Pacific Northwest into a contemporary Wild West. Refresh, Refresh by Benjamin Percy is a bold, fiery, and unforgettable collection that deals with vital issues of our time.</p> |
| <p>From award-winning author Benjamin Percy comes an explosive, breakout speculative thriller in which a powerful new metal arrives on Earth in the wake of a meteor shower, triggering a massive new "gold rush" in the Midwest and turning life as we know it on its head. The first of a cycle of novels set in a shared universe.</p> |

| <p>In his first book of nonfiction, Benjamin Percy challenges the notion that literary and genre fiction are mutually exclusive. In fifteen essays on the craft of fiction, Percy looks to disparate sources to discover how contemporary writers engage issues of plot, suspense, momentum and the speculative, as well as character, setting and dialogue. An urgent and entertaining missive on craft, Thrill Me brims with Percy's distinctive blend of anecdotes, advice and close reading, all in the service of one dictum: Thrill the reader.</p> |
| <p>A spine-tingling new collection of stories from the acclaimed author of Thrill Me and The Dark Net Benjamin Percy is a versatile and propulsive storyteller whose genre-busting novels and story collections have ranged from literary to thriller to postapocalyptic. In his essay collection, Thrill Me, he laid bare for readers how and why he channels disparate influences in his work. Now, in his first story collection since the acclaimed Refresh, Refresh, Percy brings his page-turning skills to bear in Suicide Woods, a potent brew of horror, crime, and weird happenings in the woods. A boy in his uncle's care falls through the ice on a pond and emerges in a frozen, uncanny state. A group of people in therapy for suicidal ideation undergoes a drastic session in the woods with fatal consequences. A body found on a train and a blood-soaked carpet in an empty house are clues to a puzzling crime in a small town. And in a pulse-quickening novella, thrill seekers on a mapping expedition into the "Bermuda Triangle" of remote Alaska are stranded on a sinister island that seems to want them dead. In story after story, which have appeared in magazines ranging from the Virginia Quarterly Review and Orion Magazine to McSweeney's and Ploughshares, Percy delivers haunting and chilling narratives that will have readers hanging on every word. A master class in suspense and horror, Suicide Woods is a dark, inventive collection packed to the gills with eerie, can't-miss tales.</p> |
| <p>It begins in 1964 with the sudden and unexpected death of Sergai Korolev, the man who ran the Soviet Space Program. Young Yuri Ribko, an engineering student working for one of the Korolev's bureaus, is either fortunate or unfortunate to have an uncle who is a high ranking member of State security. Yuri's uncle recruits him to spy within the Bureau, to assist in identifying possible threats to the Space Program. In return, Yuri is set on a fast-track of promotion, from engineering assistant to cosmonaut. From the earliest work on Russia's lunar lander, through a devastating string of exploding launch vehicles and deadly landings, Red Moon gives us an insider's view of Russia's gallant but doomed Moon Shot. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.</p> |
| <p>"Benjamin Percy is a force." -Anthony Doerr, All the Light We Cannot See RED MOON author Benjamin Percy's widely praised debut story collection, originally published by a university press, is now available for the first time as an ebook. This debut collection of stories, The Language of Elk, by the award-winning author of Red Moon, assembles its cast from the mountain towns and low life taverns and high desert ranches of Oregon—a state that in isolated pockets remains a still-unfinished place, the frontier. Here nature exists as a source of wonder and a force to be conquered. Here myths haunt the moss-laden woods and Benjamin Percy shines his light on them, revealing bearded ladies and Bigfoot and marijuana colonies and elk hunting ranches and haunted Indian burial sites, the underside of contemporary western America. With a salty mystical quality that partners the landscape and a vision as wild as his characters, Percy explores a world of surprising violence and gentleness, hilarity and heartbreak, loveliness and ugliness, and in doing so emerges as a beautifully raw voice of the West.</p> |

"Thrilling ... one of the best Stephen King novels not written by the master himself. ... The setup promises furious action, and Percy delivers, like [Richard] Matheson, like King. ... An awfully impressive literary performance."—New York Times Book Review
"Masterful crafting ... a horror story for our times."—Minneapolis Star Tribune
The Dark Net is real. An anonymous and often criminal arena that exists in the secret far reaches of the Web, some use it to manage Bitcoins, pirate movies and music, or traffic in drugs and stolen goods. And now, an ancient darkness is gathering there as well. This force is threatening to spread virally into the real world unless it can be stopped by members of a ragtag crew, including a twelve-year-old who has been fitted with a high-tech visual prosthetic to combat her blindness; a technophobic journalist; a one-time child evangelist with an arsenal in his basement, and a hacker who believes himself a soldier of the Internet. Set in present-day Portland, The Dark Net is a cracked-mirror version of the digital nightmare we already live in, a timely and wildly imaginative techno-thriller about the evil that lurks in real and virtual spaces, and the power of a united few to fight back. "This is horror literature's bebop, bold, smart, confident in its capacity to redefine its genre from the ground up. Read this book, but take a firm grip on your hat before you start."—Peter Straub

In Benjamin Percy's new thriller, a post-apocalyptic reimagining of the Lewis and Clark saga, a super flu and nuclear fallout have made a husk of the world we know. A few humans carry on, living in outposts such as the Sanctuary-the remains of St. Louis-a shielded community that owes its survival to its militant defense and fear-mongering leaders. Then a rider comes from the wasteland beyond its walls. She reports on the outside world: west of the Cascades, rain falls, crops grow, civilization thrives. But there is danger too: the rising power of an army that pillages and enslaves every community they happen upon. Against the wishes of the Sanctuary, a small group sets out in secrecy. Led by Lewis Meriwether and Mina Clark, they hope to expand their infant nation, and to reunite the States. But the Sanctuary will not allow them to escape without a fight.
