The Ministry of Finance, Government of India established a High Powered Expert Committee in 2006 to study the feasibility of India's entry into the global market for international financial services and that of Mumbai becoming an international financial center. David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.

"Difference Makers: Stories of Those Who Dared" is a different sort of book. It features many big names from corporate titans to ministers to social entrepreneurs. But it is not just a compilation of feel-good success stories and minting millions. It is a celebration of the human spirit, of daring, drive and doggedness to make a difference. The endeavors within will make you tear, chortle, sigh, reflect and renew your faith that all things are possible. It is guaranteed to make a difference to your life.

Military Industry and Regional Defense Policy re-examines military industrialization in the developing world, focusing on policy-making in producer states and the impact of security perceptions on such policy-making. Timothy D. Hoyt reassesses the role of regional state sub-systems in international relations, and recent historical studies of international technology and arms transfers. Looking at Israel, Iraq and India, the three most powerful regional powers in the Cold War era, he presents an expert analysis of the three-sided phenomena of the regional hegemony, the regional competitor and the small over-achiever. This new book breaks away from existing literature on military industries in the developing world, which has focused on their economic and development costs and benefits. These past studies have used primitive methodologies that focus on the production of complete weapons systems - a misleading gauge in a world of growing international defense cooperation. They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict, and of the defence planning and concerns that drove development of indigenous military industries in key regional powers. This new text delivers an incisive new perspective.
