Chapter 27 2566 (a) True. The magnetic field due to an infinitely long, straight wire is given by $B = \frac{\mu_0 I}{2\pi R}$, where R is the perpendicular distance to the field point. Because the magnetic field decreases linearly as the distance from the wire's central axis, the maximum field produced by this current is at the surface of the wire. (b) False. Because the magnetic field due to an infinitely long, straight wire is
