Manual Chapter
8

This document provides guidance for those responsible for the design of temporary traffic management arrangements which should be

Where To Download

implemented to facilitate maintenance activities or in response to temporary situations. It contains advice relating to traffic safety measures, and the identity and location of the traffic signs needed to guide road users, including

Where To Download

pedestrians, safely
past obstructions in
temporary situations.

It is structured to
facilitate and reflect
the design process
for temporary traffic
management, from
the initial broad brief
to details of signing
provision. It raises the
principal issues that
need to be
considered in

Where To Download

Temporary traffic management design and provides advice about their resolution. The document deals with the design of temporary traffic management arrangements on single carriageway roads and dual carriageway roads separately. The

Where To Download

design guidance is illustrated by the inclusion of sample plans. This edition supersedes the 2006 edition (ISBN 9780115527388)

This publication sets out the statutory requirements for signing, lighting, and

carriageway roads
and dual
carriageways with a
speed limit of 40 mph
or less. The code is
now divided into
three parts: Basic

increased emphasis
on using risk
assessment and
guidance on what to
consider in such
assessments;
strengthened
guidance on
providing for
pedestrians and
cyclists and new
guidance on traffic

This is intended to
provide a national
standard for signing
and marking of
obstructions and
temporary traffic
control. Since this
chapter was first

published in 1974,
higher traffic
volumes have meant
that temporary
signing has been
made more difficult.
This document
supersedes Chapter 8
(1974).
