Trailer Wiring Diagram and Installation Help -Towing 101 How to wire a 7 Pin (12 N type) Trailer/Caravan Plug

In the UK, trailer lights are normallly connected using a 7 pin plug and socket known as a type 12N. If you look at a socket or plug you should be able to see the pin lables (1-7). In some cases and more often in Europe the trailer light will be connected using a 13 pin plug and socket.

How to wire a 7 Pin (12 N type) Trailer/Caravan Plug Single electrics use one plug to connect your vehicle and trailer electrics, whereas twin electrics require two 7 pin plugs, which is usually necessary for towing older caravans or trailers. What are 12N and 12S? 12N electrics provide the 'normal'

legal lighting requirements, via a single 7 pin electrics plug.

Trailer Wiring Diagrams | etrailer.com To determine how to wire up trailer lights, you need to know whether your vehicle has a factory-installed trailer package and whether a plug-and-play T-connector is available for it on the market. If your vehicle came prewired for towing, it Page 28/34

may have a factory trailer harness connection (USCAR connector) in the rear bumper.

Electrical Wiring Guide <u>for Towbars</u> ... Trailer connectors between the trailer and passenger car, light truck or heavy trucks with 12V systems In Europe, both 7-pin (ISO 1724) and 13-pin (ISO 11446) are common. The 13-pin version being phased in is newer, provides more services than the 7-pin, Page 33/34

a more positive locking and also better protection against moisture and contamination.
