athletes around the world. TCFL is more than just a book and model, it is a manuscript. TCFL will produce books, workbooks, coaching seminars, sports camps, scholarships and much more. It is Sanders' vision that TCFL will be The Athlete's Manuscript for millions of young male athletes across the world. The title of the book is Training Camp For Life: Developing Champions In Sports and In Life. TCFL for short, is a 3 part series book that focuses on meeting each reader at the level they are at. The initial plan was to write one book on a multitude of topics. After careful thought Sanders realized that 300+ pages in one book wouldn't be very appealing to his target audience. The decision was made to take the book and split it into a 3 part series. Each book has roughly 100-150 pages in length with about 8-10 chapters per book. This allows the reader to grasp the concepts TCFL teaches and not feel overwhelmed with information. We all know that it becomes very difficult to apply what you are learning when you are overwhelmed. The overall mission of for TCFL is to get each reader to emphasis application. It's one thing to know something, but it is a completely different ball game when it comes to applying what you know. The simple terminologies and commonly used vocabulary in this book are strategic. TCFL is written on a level that most readers can relate to and comprehend."

There is absolutely nothing in the American experience comparable to basic training or boot camp. If you haven't been through it, you can't understand it. But if you've been through it, you never forget it. No matter where they live, all American fighting men and women have one thing in common: They have survived basic military training. They've crawled through the swamps on Parris Island, stood in the frigid cold guarding a Dumpster at Great Lakes,

struggled to complete fifteen bars on the horizontal ladder to get to the chow hall at Ft. Jackson, fought desperately to stay awake after long days without sleep at Lackland. They were shaved and screamed at, they barely ate, they marched a hundred miles, and they accomplished things they never would have dreamed were possible. They made the epic journey from civilian to soldier in eight weeks... and gained a lifetime of memories in the process. If you've done it, you will recognize the Drill Instructors, the marching chants, the movie segments, the proper way to make a hospital corner, the jokes, the camaraderie and the shared feeling of triumph. And those who haven't done it—yet—will understand and appreciate this life-changing experience. Basic is the story of that training. Col. Jack Jacobs and David Fisher tell the funny, sad, dramatic, poignant, and sometimes crazy history of how America has trained its military, told through the indelible memories of those who remember the experiences as if they happened yesterday.

This is the history of the World War One training camp located on the edge of tiny Deming, N.M. Originally, the camp drew men from the National Guard units of Minnesota, Nebraska, Iowa, North and South Dakota. Eventually draftees were needed to build the 34th Division to 30,000 men. The temporary training camp covered the desert with hundreds of tents and crude wooden structures. Imagine waves of khaki-clad men descending on Deming on a Saturday night. In the book, many stories are highlighted. For instance, the National League Chicago Cubs played an exhibition game at the camp against a team of soldiers. Jack Yellen, the local rep for the Jewish Welfare Board, helped entertain troops and turned out to be the camp's answer to Irving Berlin. Nebraskan, Major John Birkner ended up drummed out of the Army and tried for treason for expressing his opinions about the war. Many leaders from the states with National Guard units at Camp Cody were unhappy with the quality of the camp. They complained bitterly about the blowing sand - the division did go on to take on the

nickname "Sandstorm Division." Meanwhile, a Minnesota congressman called Camp Cody the gateway to Hades. Others, who had experience in the trenches of France, thought the camp was just dandy. After the war, the camp disappeared almost as fast as it appeared. Deming was able to save the Army hospital at the camp and turn it into a sanatorium for sufferers of tuberculosis. In the end, Deming was a changed town - more Midwestern than similar communities in southern New Mexico.
