This list of battleships of the United States Navy consists of all ships with the hull classification symbol "BB". A number of these were started but never completed. All battleships have now been retired from service with the U.S. Navy. American battleships can be roughly divided into five types: coastal defense, pre-dreadnought, dreadnought, standard, and fast.1 1 Late 1800s-1900s 2 Mid to ...

~~List of battleships of the United States Navy | Military~~

The United States Navy began the construction of battleships with USS Texas in 1892, but the first battleship under that designation would be USS Indiana. Texas and USS Maine, commissioned three years later, were part of the New Navy program of the late 19th century, a proposal by then Secretary of the Navy William H. Hunt to match Europe's navies that ignited a years-long debate that was ...

~~List of battleships of the United States - Wikipedia~~

U.S. Navy battleship construction began with the keel laying of the Maine in 1888 and ended with the suspension of the incomplete Kentucky (BB-66) in 1947. During this almost six-decade-long era, 59 battleships of 23 different basic designs (or "classes") were completed for the Navy.

USS Arizona (BB-39) was the second and last of the Pennsylvania class of "super-dreadnought" battleships built for the United States Navy in the mid-1910s. Named in honor of the 48th state's recent admission into the union and commissioned in 1916, the ship remained stateside during World War I.Shortly after the end of the war, Arizona was one of a number of American ships that briefly ...

USS Enterprise (CV-6) was a Yorktown-class carrier built for the United States Navy during the 1930s. She was the seventh U.S. Navy vessel of that name.Colloquially called "The Big E", she was the sixth aircraft carrier of the United States Navy.Launched in 1936, she was one of only three American carriers commissioned before World War II to survive the war (the others being Saratoga and Ranger).
