How does one become/or kill/a werewolf? Where do our modern shapeshifting stories come from? Are werewolves real? In this fascinating book, Konstantinos digs into the centuries-old myths and compelling scientific evidence surrounding these enigmatic beasts of literary and Hollywood fame. Explore four different types of werewolves: involuntary, voluntary, otherdimensional beings, and astral Find out which kinds of werewolves might actually exist Learn about the shapeshifting beliefs of the Quileutes and other Native American tribes Discover lycanthropic legends from cultures all over the world You'll also find true, never-before-published accounts of werewolf sightings and discussions of modern scientific theories that support the existence of these mysterious creatures. Each aspect is investigated, from curses and shamanic vision quests to drug-induced hallucinations and serial-killer werewolves.

This companion to "Nocturnal Witchcraft" contains exclusive material taken from the author's own "Book of Shadows." Includes nocturnal rituals for the sabbats and the Dark and Full Moons.

Since the dawn of civilization the vampire has danced through the dreams and nightmares of every culture, expressed in folklore, literature, and art. Today, this fascination resonates in pop-culture, through hit television shows and movies and bestselling books. But what does it mean to be a vampire, a living and modern vampire? What many do not realize is that the Living Vampyre is on a serious, lifelong spiritual path. Best known as Strigoi VII, the Living Vampyre is one who has embarked on a serious and lifelong spiritual path. Not just kids in capes, the members of this magical community seek to live in glamour and ritual every day. The Vampyre Sanguinicon provides a profound perspective on the Vampyre culture, traditions, movement and philosophies, which are intended to challenge and inspire your views. Chapters include Vampyre Ritual, Vampyre Sensuality, Beginning Vampyrism, and The Vampyre Wedding.

For those attracted to the occult, the author of "Nocturnal Witchcraft" presents a collection of magical techniques for working with dark forces.

A chilling chronicle of the often ignored history of vampirism as it has surfaced repeatedly in news articles, historical accounts, and first person interviews, this shocking account of occultist rituals and the inhuman forces that influence them shines a light on the horrifying truth. Revealing that real vampires are not immortal, do not have fangs or sleep in coffins, and have no fear of sunlight or crucifixes, the examination dispels many myths but also confirms the truth behind several traits of real vampires, such as the insatiable thirst for blood and the dream of an eternal soul. Complete with 30 spiningtling tales of the hideous wriths and creatures that lurk in shadow, this fascinating collection includes the stories of the Mexican prostitute who mesmerized an entire village, convincing them she was an Incan goddess who required human sacrifice for her magic; the three teenagers who left a trail across the South as they conducted blooddrinking rituals with animals; and the mysterious Lady in Black who draws psychic energy from men who dare approach her as she wanders through city streets and parks.

Embrace the shadows and explore the dark side of magick.

A look at the forgotten ancestors of the modern-day vampire, many of which have very different characteristics Looks at the many ancestral forms of the modern vampire, including shroud eaters, appesarts, and stafi Presents evidence for the reality of this phenomenon from pre-19th-century newspaper articles and judicial records Of all forms taken by the undead, the vampire wields the most powerful pull on the modern imagination. But the countless movies and books inspired by this child of the night who has a predilection for human blood are based on incidents recorded as fact in newspapers and judicial archives in the centuries preceding the works of Bram Stoker and other writers. Digging through these forgotten records, Claude Lecouteux unearths a very different figure of the vampire in the many accounts of individuals who reportedly would return from their graves to attack the living. These ancestors of the modern vampire were not all blood suckers; they included shroud eaters, appesarts, nightmares, and the curious figure of the stafia, whose origin is a result of masons secretly interring the shadow of a living human being in the wall of a building under construction. As Lecouteux shows, the belief in vampires predates ancient Roman times, which abounded with lamia, stirges, and ghouls. Discarding the tacked together explanations of modern science for these inexplicable phenomena, the author looks back to another folk belief that has come down through the centuries like that of the undead: the existence of multiple souls in every individual, not all of which are able to move on to the next world after death.

If you've ever felt that your energy or life force was being continually drained by someone - especially if it was someone that you loved - then you probably should have given them this book. This is the definitive guide to psychic vampires, with exercises and advice to help them learn control and compassion, and get their needs met in ethical ways. From coping with vampire children to dealing with your vampire lover, this book covers it all in straightforward style.

Being turned into a vampire is the easy part. Actually becoming a vampire is far more difficult. In today's world of vampire-obsessed pop culture, misinformation abounds.
