Vitro has pretty much all the key components necessary for a really fun action/adventure hit: we start with the setting and atmosphere of the creepy desert island (by the name of Skin Island, no less), which Jessica Khoury nails; then there's the handful of interesting conspiracies and twists, and behind it all, a villain whose motives are entirely believable (which makes everything even more spine-tingling).

Vitro is not a sequel to Origin, but it is a companion novel. That means it is set in the same universe as the one Pia lives in, but only one character appears in both. You don't have to read them in any particular order, since the stories are each independent of the other. Book 1

Pia has always known her destiny. She is meant to start a new race, a line of descendants who will bring an end to death. She has been bred for no other purpose, genetically engineered to be immortal and raised by a team of scientists in a secret compound hidden deep in the Amazon rainforest. Now those scientists have begun to challenge her, with the goal of training her to carry on their dangerous work. For as long as she can remember, Pia's greatest desire has been to fulfill their expectations. But then one night she finds a hole in the impenetrable fence that surrounds her sterile home. Free in the jungle for the first time in her life, Pia meets Eio, a boy from a nearby village. Unable to resist, she continues sneaking out to see him. As they fall in love, they begin to piece together the truth about Pia's origin—a truth with nothing less than deadly consequences that will change their lives forever. Sirin, Allie, and Joss have joined forces with the legendary silver dragon Lysander, the only creature capable of opening portals between the two worlds. But the powerful Lennix clan is following the children's every move and will stop at nothing to capture Lysander. After generations of plotting, the Lennixes -- and their bloodthirsty dragon allies, the Raptors -- are terrifyingly close to establishing a brutal dragon regime on Earth, just like they did centuries ago. Now, it's up to Allie, Joss, and Sirin to protect Lysander while searching for a secret source of lost dragon magic, the only force powerful enough to stop the Raptor. But when their search takes them to one of the largest cities on Earth, the new friends must decide what's more important: finding the missing treasure or guarding the most important secret in the world -- that dragons have returned to Earth . . . and not all of them have good intentions.
