Landing page optimization. Landing page optimization (LPO) is one part of a broader Internet marketing process called conversion optimization, or conversion rate optimization (CRO), with the goal of improving the percentage of visitors to the website that becomes sales leads and customers.

Landing page - Wikipedia

Landing page optimization is a critical process of web design. If your client's ecommerce homepage is like a physical storefront, then the landing page is like a pop-up shop or a stand in the farmers' market. The homepage is aimed at people who already know the brand and the website URL.

Landing Page Optimization: 10 Tips for Increasing Conversions

Landing page optimization is an important aspect of the web design process. The home page of an online store or eCommerce website is aimed at users who are connected and engaged with your brand. On another hand, a landing page is designed for a specific marketing campaign and grab the attention of visitors towards a particular product, service, or offer.

Landing Page Optimization- How to Optimize Landing Pages ...

Optimization of landing page means enhancing every element on the landing page to improve the conversion ratio. The point to be noted here is one cannot optimize the landing page from the first day itself when the website goes live. It has to be analyzed every day to pick the right signal where one is going wrong and further improvising it.
