When an exquisitely crafted, authentic imperial Faberge egg mysteriously shows up at Laurel Swann's home studio, she knows it can only be from one person—her father, who has drifted in and out of her life for as long as she can remember. But this time Jamie Swann leaves her something too many people will kill for. Out of her league and desperate, Laurel is forced to accept help from the very man who is trying to ensnare her father in his own web of double crosses. Cruz Rowan can help her stay alive, but will he do the same for her father? Elizabeth Lowell, writing as Ann Maxwell, deftly combines the nonstop action of a spy thriller with the heart-pounding excitement of true love and adventure.

When analyzing the results of diagnostic imaging studies, the radiologist traditionally makes reference to particular features representative of normality or pathology. Most of these features are associated with images of the world around us. This pictorial issue contains nearly 400 illustrations and descriptions of more than 100 classic radiological signs of chest and abdominal diseases that are not named after authors but based on metaphors derived from contemplation of our environment. By correlating the results of computed tomography with these vivid descriptive images, readers will be able to memorize typical and often pathognomonic patterns of disease more quickly and more easily. This book will be of value for both radiology residents and more experienced radiologists.

Throughout the book, theoretical foundations necessary for understanding Electronic Commerce (EC) are presented, ranging from consumer behavior to the economic theory of competition. Furthermore, this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields, including a senior vice president of an e-commerce-related company. The authors provide website resources, numerous exercises, and extensive references to supplement the theoretical presentations. At the end of each chapter, a list of online resources with links to the websites is also provided. Additionally, extensive, vivid examples from large corporations, small businesses from different industries, and services, governments, and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce. These examples, which were collected by both academicians and practitioners, show the reader the capabilities of EC, its cost and justification, and the innovative ways corporations are using EC in their operations. In this edition (previous editions published by Pearson/Prentice Hall), the authors bring forth the latest trends in e-commerce, including social businesses, social networking, social collaboration, innovations, and mobility.

This is a complete update of the best-selling undergraduate textbook on Electronic Commerce (EC). New to this 4th Edition is the addition of material on Social Commerce (two chapters); a new tutorial on the major EC support technologies, including cloud computing, RFID, and EDI; ten new learning outcomes; and video exercises added to most chapters. Wherever appropriate, material on Social Commerce has been added to existing chapters. Supplementary material includes an Instructor's Manual; Test Bank questions for each chapter; Powerpoint Lecture Notes; and a Companion Website that includes EC support technologies as well as online files. The book is organized into 12 chapters grouped into 6 parts. Part 1 is an Introduction to E-Commerce and E-Marketplaces. Part 2 focuses on EC Applications, while Part 3 looks at Emerging EC Platforms, with two new chapters on Social Commerce and Enterprise Social Networks. Part 4 examines EC Support Services, and Part 5 looks at E-Commerce Strategy and Implementation. Part 6 is a collection of online tutorials on Launching Online Businesses and EC Projects, with tutorials focusing on e-CRM; EC Technology; Business Intelligence, including Data-, Text-, and Web Mining; E-Collaboration; and Competition in Cyberspace. the following="" tutorials="" are="" not="" related="" to="" "" any="" "" specific="" "" chapter.="" they="" "" cover="" the="" "" essentials="" ec="" technologies="" and="" provide="" a="" "" guide="" relevant="" resources.="" p
