Why I Am Not a Painter is one of my favourite Frank O'Hara poems. He wrote it after a series of visits to his friend Michael Goldberg, the American abstract expressionist painter. Like many have done so before and since O'Hara grapples with the idea of the many forms of expression open to the human creative spirit.

Last week I began a new series titled "Why I Am Not" and in this series I am exploring some of the things I do not believe as a means to explaining what I do believe. In the last article I explained why I am not atheist and now want to explain why I am not Roman Catholic. The timing of this article is unplanned but rather appropriate. I publish today from Orlando, Florida where I am ...

Why I am Not a Conservative. 1. At a time when most movements that are thought to be progressive advocate further encroachments on individual liberty, those who cherish freedom are likely to expend their energies in opposition. In this they find themselves much of the time on the same side as those who habitually resist change.

For the past few weeks I have been taking a day a week to tell how I have arrived at my various theological convictions. I've done this by telling you why I am not what I am not: I am not atheist, Roman Catholic, liberal, or Arminian. Today I want to tell you why I am not paedobaptist. But first, of course, definitions are in order. While all Protestants affirm the necessity of baptism ...

Following in the tradition of Bertrand Russell's Why I Am Not a Christian, Thompson delivers a timely rebuttal to what he calls Buddhist modernism, the idea, loosely, that Buddhism is not a religion but a science of the mind. The argument Western Buddhists need to hear.

As you know, I am well into a series that tells what I believe by discussing the things I do not believe. To this point I have told why I am not atheist, Roman Catholic, liberal, Arminian, or paedobaptist. That means we are hastening toward the end of the series with just three articles remaining. Today I will tell why I am not dispensational, and I warn you in advance, it may prove disappointing.

"I am as firmly convinced that religions do harm as I am that they are untrue" - preface.

Paying particular attention to the issue of God's sovereignty, Jerry L. Walls and Joseph R. Dongell critique biblical and theological weaknesses of Calvinist thought.

Those who practice the Muslim faith have resisted examinations of their religion. They are extremely guarded about their religion, and what they consider blasphemous acts by skeptical Muslims and non-Muslims alike has only served to pique the world's curiosity. This critical examination reveals an unflattering picture of the faith and its practitioners. Nevertheless, it is the truth, something that has either been deliberately concealed by modern scholars or buried in obscure journals accessible only to a select few.

"The most gratifying thing for me [is] that [this book] was listed as a millennium book [by The Pioneer] along with Dr. B. R. Ambedkar's Annihilation of Caste. Moreover, it has been translated into several Indian languages. In a way it has become a weapon in the hands of Dalitbahujan activists" (from the Afterword to the second edition). Kancha Ilaiah Shepherd writes with passionate anger, laced with sarcasm, on the caste system and Indian society. He looks at the socioeconomic and cultural differences between the Dalitbahujans and Hindus in the contexts of childhood, family life, market relations, power relations, Gods and Goddesses, death and, not the least, Hindutva. Synthesizing many of the ideas of Bahujans, he presents their vision of a more just society. In this second edition, Ilaiah Shepherd presents an Afterword that discusses the history of this book, often seen as the manifesto of the downtrodden Dalitbahujans. He talks of its reviews as well as of the abuse he has received from its detractors. He reminds us of the need for an ongoing dialogue. As he says, he wrote the book "for all who have open minds. My request to Brahmin, Baniya and neo-Kshatriyas [upper class Sudras] is this: You learnt only what to teach others" the Dalitbahujans. Now in your own interest and in the interest of this great country, you must learn to listen and to read what we have to say."

"Highly readable and informative, this critical series of vignettes illustrates a long history of the corruption of science by folk beliefs, careerism, and sociopolitical agendas. Marks repeatedly brings home the message that we should challenge scientists, especially molecular geneticists, before we accept their results and give millions of dollars in public and private funds toward their enterprises."—Russell Tuttle, The University of Chicago "Jonathan Marks has produced a personal and compelling story of how science works. His involvement in scientific endeavor in human biology and evolution over the past three decades and his keen sense of the workings of science make this book a must read for both scientists and lay readers. In this sense, the lay reader will learn how scientists should and shouldn't think and some scientists who read this book will come away thinking they are truly not scientists nor would they want to be."—Rob DeSalle, American Museum of Natural History

Jonathan Marks's *Why I Am Not a Scientist* provides food for thought, and as expected, it's digestible. In unusually broad perspective, this anthropology of knowledge considers science and race and racism, gender, fraud, misconduct and creationism in a way that makes one proud to be called a scientist. —George J. Armelagos, Emory University

When eight-year-old Irene is removed from her First Nations family to live in a residential school she is confused, frightened, and terribly homesick. She tries to remember who she is and where she came from, despite the efforts of the nuns who are in charge at the school and who tell her that she is not to use her own name but instead use the number they have assigned to her. When she goes home for summer holidays, Irene's parents decide never to send her and her brothers away again. But where will they hide? And what will happen when her parents disobey the law? Based on the life of co-author Jenny Kay Dupuis' grandmother, *I Am Not a Number* is a hugely necessary book that brings a terrible part of Canada's history to light in a way that children can learn from and relate to.

"A provocative essay challenging the idea of Buddhist exceptionalism, from one of the world's most widely respected philosophers and writers on Buddhism and science. Buddhism has become a uniquely favored religion in our modern age. A burgeoning number of books extol the scientifically proven benefits of meditation and mindfulness for everything ranging from business to romance. There are conferences, courses, and celebrities promoting the notion that Buddhism is spirituality for the rational; compatible with cutting-edge science; indeed, "a science of the mind." In this provocative book, Evan Thompson argues that this representation of Buddhism is false. In lucid and entertaining prose, Thompson dives deep into both Western and Buddhist philosophy to explain how the goals of science and religion are fundamentally different. Efforts to seek their unification are wrongheaded and promote mistaken ideas of both. He suggests cosmopolitanism instead, a worldview with deep roots in both Eastern and Western traditions. Smart, sympathetic, and intellectually ambitious, this book is a must-read for anyone interested in Buddhism's place in our world today."--Provided by publisher.

The Author Writes With Passionate Anger And Sarcasm On The Situation In India To-Day. Synthesizing Many Of The Ideas Of Bahujans, The Author Presents Their Vision Of A More Just Society.
