Hair stylist Isla's dream job in an exclusive Edinburgh salon takes a nosedive when she drops a clanger while colouring a customer's hair. Given two months 'gardening leave' by her boss, she suddenly finds herself without a job and without a future.

Twenty-three dollars and eleven cents—that's all that thirty-five-year-old Chloe Davis Michaels has to her name after she is driven from her home and career as a jet-setting Hollywood publicist, desperate to protect her unborn child from her crazed newlywed husband. She thought she had it all. Now Chloe seeks refuge in her Midwestern hometown to “get prayed up” by the women in her family. Chloe's impromptu homecoming takes us into the world of eight African-American women who make up the Davis clan—three mothers and five daughters, including Chloe, who soon discovers that the secrets she's been keeping about her own life don't compare to the secrets the other women in her family have been hiding. As the bonds of family are tested, the women call upon their strong faith and spiritual teachings of deceased family matriarchs, MaMaw and Muh, in order to weather the storm. With rippling boldness and crackling prose, Wildflowers is a beautifully written novel that explores the richness and complexity of the love between mothers and daughters.

Describes more than sixty familiar American wildflowers and presents the stories behind their popular names.

She always followed the path of least resistance...until it leads her to a small town where she can follow her dreams. When Emma Cantrell's marriage imploded, she learned a fast and painful lesson about trusting her heart. Then, on a visit to Magnolia, North Carolina, to see her brother, an elegant, if dilapidated, mansion for sale presents the opportunity to start over. Risking everything on her dream of opening the Wildflower Inn, Emma buys the house...just as the storm of the century hits, severely damaging the structure. But a chance meeting with Holly, a bride-to-be in desperate need of a new venue, gives her hope...and the name of a contractor who'll work fast and cheap, allowing Emma to repair the inn in time to host the wedding and save her investment. A furniture builder who hasn't picked up a tool in the five years since his wife died, Cameron Mitchell has no intention of agreeing to help this beautiful—and, he'd guess, entitled—woman insisting that he fix her inn. Until he learns that Emma was sent by Holly, the little sister of his late wife. Grudgingly, Cameron agrees to do the work, with one condition: that he be left completely alone. But the more time they spend together, the more Emma touches a part of his heart he was sure died long ago, forcing him to try making peace with his past. *The Carolina Girls*

Four unruly teens living together in a home for troubled youth find connection and strength, like that of wildflowers, as they face their harrowing pasts and new tragedies.

Ten-year-old Mira must balance the loyalty she feels towards her family with the desire to be accepted by her new classmates in this powerful coming-of-age story about identity, community, and finding a place to call home. I'm not like most of my classmates. At least not yet. My family came to this country when I was five years old, but we're so close to becoming citizens now. This means we'll finally be able to use Amber like everyone else. Then I will be

as special as the rest of my classmates, the ones who were born here with magic already in their veins. But most of all, no one will compare me to Daniel anymore. Daniel who doesn't even try to fit in, who actually seems proud of being an outsider. Once I take my first sip of Amber, I will be on the inside. I hope.

"Beauty and the Beast: California Wildflowers and Climate Change" is a 12 x 12" beautifully illustrated and designed 264 page coffee table book created by conservation photographers Rob Badger and Nita Winter. Illustrations: 190 stunning images of California's diverse wildflowers and their habitats, from high mountain passes in the Sierra Nevada mountains to below sea level in Death Valley National Park. Essays: Sixteen talented and diverse authors and scientists, most of whom are women, wrote 18 storytelling style essays (1,200 to 1,800 words) about nature, conservation, climate change or taking action. The two younger authors write about hope and action, and what people can do to help create positive change. The book has three sections: The Gift of Beauty, The Human Connection and Ensuring the Future. Because people are constantly hearing about all the negative things going on in the world, Nita and Rob believed there was a need for a different, softer approach to grab people's attention and center it on the climate-change story, and conservation and population issues. They engage their audiences by first inviting them to experience the splendor of the natural world through a universal symbol of beauty, the wildflower, and then educate and inspire them to take some of the simple actions they provide to create positive change and a healthier planet. Their goal is to spread conservation and climate change ideas far beyond native plant and nature lovers, and to plant the seeds to foster action. "Beauty and the Beast" is a 27 year photographic journey into the public lands of California. Lands we all own, lands under constant threat of development or resource extraction, impacts of global warming, sea level rise and wildfires. This book is as much a treasure as the flowers and creatures which are featured within its pages. Nita and Rob extend a hand to you to come in and take a long, slow look around and see what they have seen, experienced and have learned. Book includes two comprehensive indexes and a glossary. Co-published by WinterBadger Press and the California Native Plant Society

Actress Drew Barrymore shares funny, insightful, and profound stories from her past and present—told from the place of happiness she's achieved today—in this heart-stirring New York Times bestseller that InStyle called “deeply thoughtful and fun.” Wildflower is a portrait of Drew's life in stories as she looks back on the adventures, challenges, and incredible experiences she's had throughout her life. It includes tales of living in her first apartment as a teenager (and how laundry may have saved her life), getting stuck under a gas station overhang on a cross-country road trip, saying good-bye to her father in a way only he could have understood, and many more journeys and lessons that have led her to the successful, happy, and healthy place she is today.

Sisters Clemmie, Matilda, and Emma embark on an adventure of the imagination through the jungles of a mysterious island after a plane crash, which reveals the unbreakable bond they share.
