Australian politics was broken. Continued attempts to appease all had led successive governments to become ineffective and incompetent to govern. All parties had lost touch with general public opinion, listening instead to the vocal minority representing fringe groups. Although the people could see what was happening and were fed up with it, they didn't know what they could do about it, as all current political parties were the same. A chance encounter with an employee at a factory that the prime minister was visiting changed all that. The verbal exchange went viral on YouTube. Encouraged by public reaction and the advice of a close friend, Clive decided to form his own political party and take Australia out of the political abyss it had fallen into. This is his story.

The incredible true story of Tiger Woods' s dramatic comeback following his humbling and very public personal, physical, and professional setbacks. One publicly imploded marriage. Two car accidents. Eight surgeries. And now, a miracle of hard work and storied talent: five Masters wins. Once hailed as " the greatest closer in history " before he fell further than any beloved athlete in America ' s memory, Tiger swung at the world ' s wildest expectations and beat the skeptics with his April 2019 Masters championship. Roaring Back traces his road to Augusta and the improbable, phenomenal comeback of one of the greatest golfers in history. New York Times—bestselling author Curt Sampson details the highs and lows of Woods ' s career in three gripping acts. From his startling loss at the 2009 PGA Championship, detrimental obsession with his swing, and that infamous night involving an ex-wife and a nine-iron...to adoring fans and lucrative sponsors turning their backs, exclusive interviews with past instructors and PGA tour peers, and an arrest complete with a toxicology report . . . finally to Tiger coming from behind for his fifth green jacket as the crowd rumbled in Georgia, and how his comeback rivals those of the most dramatic in his sport. Sampson also places Woods ' s defeats and triumphs in the context of historic comebacks by other notable golfers like Ben Hogan, Skip Alexander, Aaron Siltan, and Charlie Beljan, finding the forty-three-year-old alone on the green for his trajectory of victory against all odds. As this enthralling book reveals, Tiger never doubted the perseverance of the winner in the mirror. " Sampson admirably details all the highs and lows. " —Jim Nantz, CBS Sports

Sketching User Experiences approaches design and design thinking as something distinct that needs to be better understood—by both designers and the people with whom they need to work—in order to achieve success with new products and systems. So while the focus is on design, the approach is holistic. Hence, the book speaks to designers, usability specialists, the HCI community, product managers, and business executives. There is an emphasis on balancing the back-end concern with usability and engineering excellence (getting the design right) with an up-front investment in sketching and ideation (getting the right design). Overall, the objective is to build the notion of informed design: molding emerging technology into a form that serves our society and reflects its values. Grounded in both practice and scientific research, Bill Buxton ' s engaging work aims to spark the imagination while encouraging the use of new techniques, breathing new life into user experience design. Covers sketching and early prototyping design methods suitable for dynamic product capabilities: cell phones that communicate with each other and other embedded systems, "smart" appliances, and things you only imagine in your dreams Thorough coverage of the design sketching method which helps easily build experience prototypes—without the effort of engineering prototypes which are difficult to abandon Reaches out to a range of designers, including user interface designers, industrial designers, software engineers, usability engineers, product managers, and others Full of case studies, examples, exercises, and projects, and access to video clips that demonstrate the principles and methods

A lively examination of the spirit and practices that have made the indie movement into a powerful cultural phenomenon You know the look: skinny jeans, Chuck Taylors, perfectly mussed bed-head hair; You know the music: Modest Mouse, the Shins, Pavement. You know the ethos: DIY with a big helping of irony. But what does it really mean to be "indie"? As popular television shows adopt indie soundtracks and the signature style bleeds into mainstream fashion, the quirky individuality of the movement seems to be losing ground. In Slanted and Enchanted, Kaya Oakes demonstrates how this phase is part of the natural cycle of a culture that reinvents itself continuously to preserve its core ideals of experimentation, freedom, and collaboration. Through interviews and profiles of the artists who have spearheaded the cause over the years—including Mike Watt, David Berman, Kathleen Hanna, and Dan Clowes—Oakes examines the collective creativity and cross-genre experimentation that are the hallmarks of this popular lifestyle trend. Her visits to music festivals, craft fairs, and smaller collectives around the country round out the story, providing a compelling portayal of indie life on the ground. Culminating in the current indie milieu of music, crafting, style, art, comics, and zines, Oakes reveals from whence indie came and where it will go next.

A STANDALONE NOVEL IN THE NEW YORK TIMES BESTSELLING SERIES She dressed professionally, wearing a plum-colored fuzzy v-neck sweater that contoured to the swell of a rack I remembered so well, legs encased in a slim pencil skirt that embellished those creamy hips I could imagine naked with a flicker of memory, lips painted fire-engine red and that maniac-inducing fifties pin-up girl look that I'd dismissed as silly when the girls in college wore it - but that made her smoking hot. Down, boy. God damn Charlotte, my ex-girlfriend, had to be here, of all places. At a bachelorette party where I was a stripper, dressed in a cop uniform with pants that suddenly got way too tight. And she had to be so fine. "Ooooh, honey, you're one big officer," said a sultry voice behind me as I watched Charlotte in the other room, chatting with the bride. A hand stroked my hip and hesitated before sliding a bit lower, filling a palm with my ass. "Arrest me, Officer. I've been a bad, bad girl." With one look at the source of the voice, my night went from Oh, man to Oh, no. That voice? That hand? That was my mother. ----- Random Acts of Hope is the fourth book in the romantic comedy Random series, and features guitar player Liam McCarthy from the band, Random Acts of Crazy. Five years ago, Liam and his girlfriend, Charlotte Greyson, were deeply in love. When a betrayal eviscerates them both, each clings to their separate truths as an anchor to navigate the perfect storm. But when the biggest ego in the band reconnects with the only woman who stole his heart, sparks fly in this sequel that asks whether you can believe in the impossible without sacrificing every ideal you hold - in order to find a love bigger than you ever imagined. Topics: contemporary romance, romantic comedy, new adult romance, rockstar romance, rock star romance, coming of age romance, erotic romance, seductive story, hot romance, women's fiction, women's romance, bbw romance, college romance, contemporary woman julia kent, julia kent romance

From #1 international bestseller Ian Rankin, an unlucky spy gets one last chance at redemption. Miles Flint is a spy who has been making some serious mistakes. His last assignment led to the death of a foreign official in London, and after getting too close to his current subject he wound up in police custody. But something is wrong at the agency that has nothing to do with Miles' errors. Why did his last suspect know more about Miles' assignment than Miles did? Why have so many operatives recently resigned? Despite the Director's assurances, Miles begins his own investigation, to the dismay of his colleagues and even his own wife. Then Miles is sent to Belfast on a routine mission, a mission that confirms his darkest suspicions -- and threatens his life.

"Edgy, erotic, and breathtaking." --Maya Banks, New York Times bestselling author Man On A Mission When Lara Kirk was abducted months ago, Miles Davenport vowed he'd bring her home. But the mission failed. Now, finding her after all this time will be next to impossible. . . Lara Kirk lives in a shadowy world where reality and fantasy are blurred. Enslaved by her captors, Lara has formed a deep attachment to a man she's not even sure is real--until the six-foot-five-inch powerhouse bursts in to rescue her. . . Once freed, Lara has no choice but to trust Miles with her life as they run from enemies too twisted to imagine. But they're also fighting a dangerous attraction that could kill--or save--them both. Either way, it's going to be a hell of a ride. . . Praise for the Novels of Shannon McKenna. . . "McKenna tantalizes the reader." --Publishers Weekly "McKenna blasts readers with a highly charged, action-adventure romance." --Booklist "An erotic romance in a suspense vehicle on overdrive. . .sizzles!" --RT Book Reviews

Provides guidance on repairing the ignition, carburetors, fuel systems, rewind starters, electrical systems, and other parts of small gas engines
