Dr. Ian K. Smith's Shred is the answer to every dieter's biggest dilemmas: how to lose that last twenty pounds? How to push through that frustrating plateau? What to do when nothing else is working? Here, Smith has created a weight loss program that uses all he knows about strategic dieting in one plan--like putting all the best players on the field at once to create a can't lose combination. Shred combines a low GI diet, meal spacing, and meal replacements. Those who follow Shred will constantly be eating (every three and a half hours!), four meals or meal replacements (soups, smoothies, shakes) and 3 snacks a day, over a six week program. Shred also introduces Dr. Ian's concept of "Diet Confusion". Diet Confusion, like muscle confusion, tricks the body and revs up its performance. In the same way you need to vary your workout to see results, switch up your food intake to boost your metabolism. No matter how often or how unsuccessfully you've dieted before, Shred: The Revolutionary Diet will change your life. Shred has taken the internet by storm, and thousands have already joined Dr. Ian's Shredder Nation, losing an average of four inches, two sizes or twenty pounds in six weeks. Utilizing the detox from Fat Smash Diet, the intense cleanse of Extreme Fat Smash, and varying food of The 4 Day Diet, Shred is a six week plan to a new way of life!

Go on a 60-year ride with Harley-Davidson's Sportster Things got a little weird in the American motorcycle industry after World War II. People hungered for new motorcycles, buying just about everything manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The

Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.
