From the 17th through the 19th century, artists in Kyoto and Edo (now Tokyo) captured the metropolitan amusements of the floating world (ukiyo in Japanese) through depictions of subjects such as the beautiful women of the Yoshiwara pleasure quarters and performers of the kabuki theater. In contrast to ukiyo-e prints by artists such as Katsushika Hokusai, which were widely circulated, ukiyo-e paintings were specially commissioned, unique objects that displayed the maker's technical skill and individual artistic sensibility.

Featuring more than 150 works from the celebrated Weston Collection, the most comprehensive of its kind in private hands and published here for the first time in English, this lavishly illustrated and meticulously researched volume addresses the genre of ukiyo-e painting in all its complexity. Individual essays explore topics such as shunga (erotica), mitate-e (images that parody or transform a well-known story or legend), and poetic inscriptions, revealing the crucial role that ukiyo-e painting played in a sophisticated urban culture.

This book offers the first in-depth account of the relationship between English and Scottish poets and the international concrete poetry movement of the 1950s to the 1970s. Concrete poetry was a literary and artistic style which reactivated early twentieth-century modernist impulses towards the merging of artistic media, while simultaneously speaking to a gamut of contemporary contexts, from post-1945 reconstruction to cybernetics, mass media and the sixties counter-culture. The terms of its development in England and Scotland suggest new ways of mapping ongoing complexities in the relationship between the two national cultures, and of tracing broader sociological and cultural trends in Britain during the 1960s and 1970s. Focusing especially on the work of Ian Hamilton Finlay, Edwin Morgan,

Dom Sylvester Houédard and Bob Cobbing, *Border Blurs* is based on new and extensive archival and primary research, and will fill a vital gap in contemporary understandings of an important but much misunderstood genre: concrete poetry. It will also serve as a vital document for scholars and students of twentieth-century British literature, modern intermedia art and modernism, especially those interested in understanding modernism's wide geographical spread and late twentieth-century legacies.

"Praise for Joan Houlihan: "Houlihan wields language like a weapon, carving out lines that are stingingly precise." -Ellen Wehle, *West Branch* "...original, energetic language that confronts various shades of darkness and captures the oddness of being alive." -Pamela Alexander, *FIELD* "...takes acuity and intensity of feeling not as its ends, but points of departure." -Michael Snediker, *Pleiades* "With simple, bold tones, she outlines the liminalities where sleep, waking, and other universal states merge in the personal...shines with a serious lyrical burnish in which image and truth alike take on the luster of icons." -Chad Parmenter, *American Book Review* "Critics compare her to Emily Dickinson and I think I know why. They each distill language and feeling to a crystalline state that never tells a lie." -Grace Caliveri, *Washington Independent Review of Books* "To say that Houlihan is a unique voice in American poetry is an understatement. The work is breathtakingly inventive and yet deeply humane. In the time when so many poets create linguistic fireworks that possess little, if any, emotive depth, Houlihan gives us a poetry of passion and lyric attentiveness that is rich in its textures, lyric tonalities, and rhythmic, memorable speech." -Ilya Kaminsky"--

Athens is an emblematic city, a place of significance. It is memory embodied in a multi-layered topos, a place of ruins with the Parthenon as its headpiece. The routes one may follow in the city are numerous and the story one may narrate changes with each turn one takes. This book acknowledges this and offers the option of the poetic word creating narratives that travel through the city of today but also cut into the city's past touching on various of its corners and opening up to the reader the city's microcosm yesterday and today. Through this itinerary, the city becomes emblematic of the macrocosm surrounding both this city and others like it. This book includes the first translation of three Modern Greek poems into English, creating a thread linking the 1980s to 2010s. The reader is led from Kaisariani, the corner of Patissini-Stournara, Athinas street, Concordia Square and Monastiraki (Ilias Lagios, Ermis G., 1984), to the old harbor and refugee suburb of Perama 14.7km from the centre of Athens (Andreas Pagoulatos, Perama, 2006), on to Psyrra, Exarchia, Agioi Anargyroi and Kypseli and finally into all the bins of Athens (George Prevedourakis, Kleftiko, 2013). Critical texts accompanying the poems urge the reader to view the poems as historical meta-texts, city narratives and depictions of the 'meta-hellenic', active political texts offering valuable insights into today no matter from how many years afar.

In fierce, textured voices, the women of Ovid's Metamorphoses claim their stories and challenge the power

of myth I am the home of this story. After thousands of years of other people's tellings, of all these different bridges, of words gotten wrong, I'll tell it myself. Seductresses and she-monsters, nymphs and demi-goddesses, populate the famous myths of Ovid's *Metamorphoses*. But what happens when the story of the chase comes in the voice of the woman fleeing her rape? When the beloved coolly returns the seducer's gaze? When tales of monstrous transfiguration are sung by those transformed? In voices both mythic and modern, *Wake, Siren* revisits each account of love, loss, rape, revenge, and change. It lays bare the violence that undergirds and lurks in the heart of Ovid's narratives, stories that helped build and perpetuate the distorted portrayal of women across centuries of art and literature. Drawing on the rhythms of epic poetry and alt rock, of everyday speech and folk song, of fireside whisperings and therapy sessions, Nina MacLaughlin, the acclaimed author of *Hammer Head*, recovers what is lost when the stories of women are told and translated by men. She breathes new life into these fraught and well-loved myths.
